PAPER CERTIFICATIONS

The mark of responsible forestry

Products with this label are certified FSC™ Recycled that identifies products made with recycled paper. FSC™ is a non-governmental international organisation which promotes the responsible use of forestry resources.

EU Ecolabel: IT/004/001

Products with this label are certified EU Ecolabel, the ecological quality label that guarantees the respect of severe criteria for the protection of the environment required at an European level: low water and air pollution, low greenhouse gas emissions and electricity use.

Products with this label are certified PEFC, the forest certification that guarantees the correct environmental management of forests from which cellulose comes.

Products with this label are certified OK compost INDUSTRIAL, the TÜV Austria-owned and Europe-wide recognised label that guarantees that a product, including components, inks and additives, is biodegradable and compostable in an industrial composting plant in accordance with the requirements of standard UNI EN 13432.

DISPENSER CERTIFICATION

ReMade in Italy® is the first accredited product certification in Italy and Europe to verify the content of recycled material in a product. It also highlights the reduced environmental impact resulting from the use of recycled rather than raw materials.

THE MMC® (MUNICIPAL MATERIAL CYCLE) MODEL

THE PROJECT FOR SCHOOLS

THE TOOLBOX FOR THE SALES CHAIN

PROJECTS BEYOND PRODUCTS.

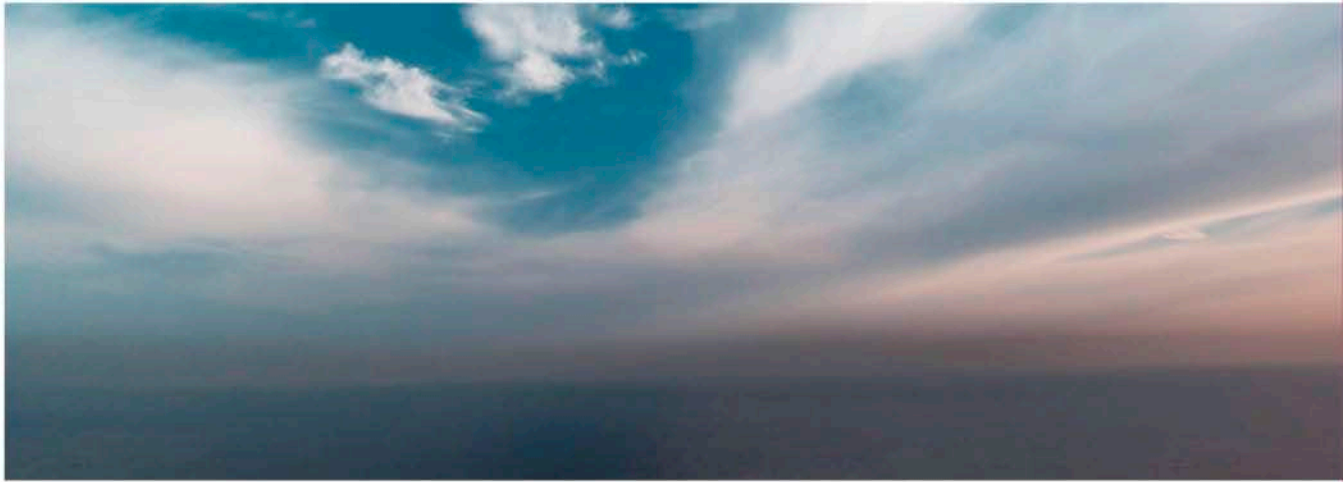

Lucart Professional shows how the forward-thinking vision of an international group is embodied in a truly innovative business model.

The circular economy model of the EcoNatural line, whose handtowels and toilet papers have been recognised as Climate Neutral products, with the new packaging made of recycled paper and plastic, and the consumption-reducing technology of the Identity and L-One dispensing system lines, are now complemented by sustainability education projects in schools and partnerships with municipalities to improve recycling processes.

A commitment to sustainability certified by tangible results and also proven by the Environmental Product Declaration (EPD) on our recycled paper products.

A calling to global innovation that will help you achieve better results in your work and help the world become a better place to live in.

CIRCULAR ECONOMY

COMING FULL CIRCLE WITH SUSTAINABILITY.

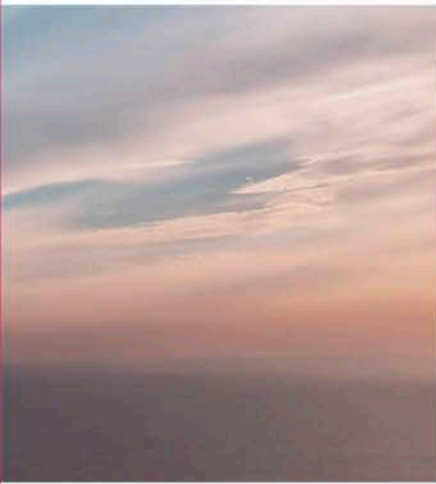

The circular economy of the EcoNatural project.
A system to turn something no longer needed
into a resource.

For the past 12 years, EcoNatural has stood for sustainable innovation. A project stemming from **advanced technology that recycles 100%** of beverage carton components through a one-of-a-kind manufacturing process in the sector.

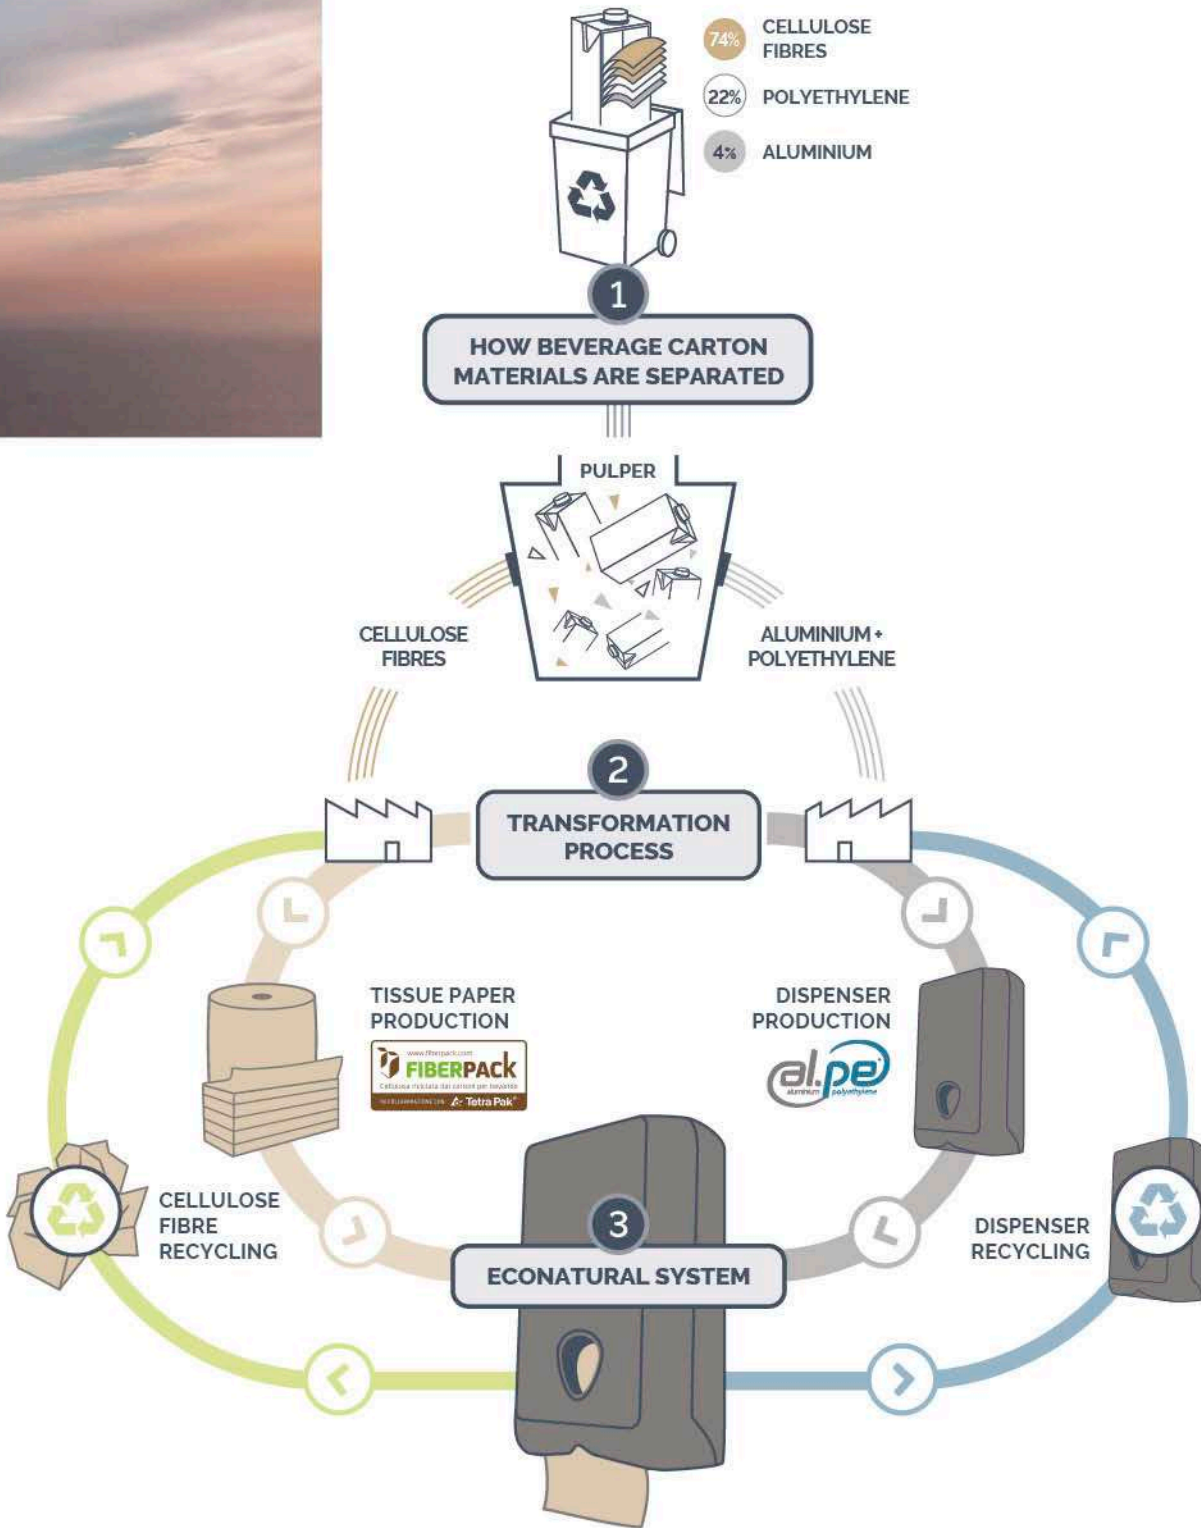

Cellulose fibres are used to produce **Fiberpack®**, the raw material employed to make toilet paper, handtowels, handkerchiefs, napkins and rolls for the EcoNatural line.

Polyethylene and aluminium are used to produce **AL.Pe®**, which in turn is employed to make paper dispensers, pallets to transport goods and other products.

A virtuous system that reduces the burden of waste on the environment and that has enabled Lucart to become truly standard-setting for the **circular economy in Europe** and to be **recognised as Climate Neutral**.

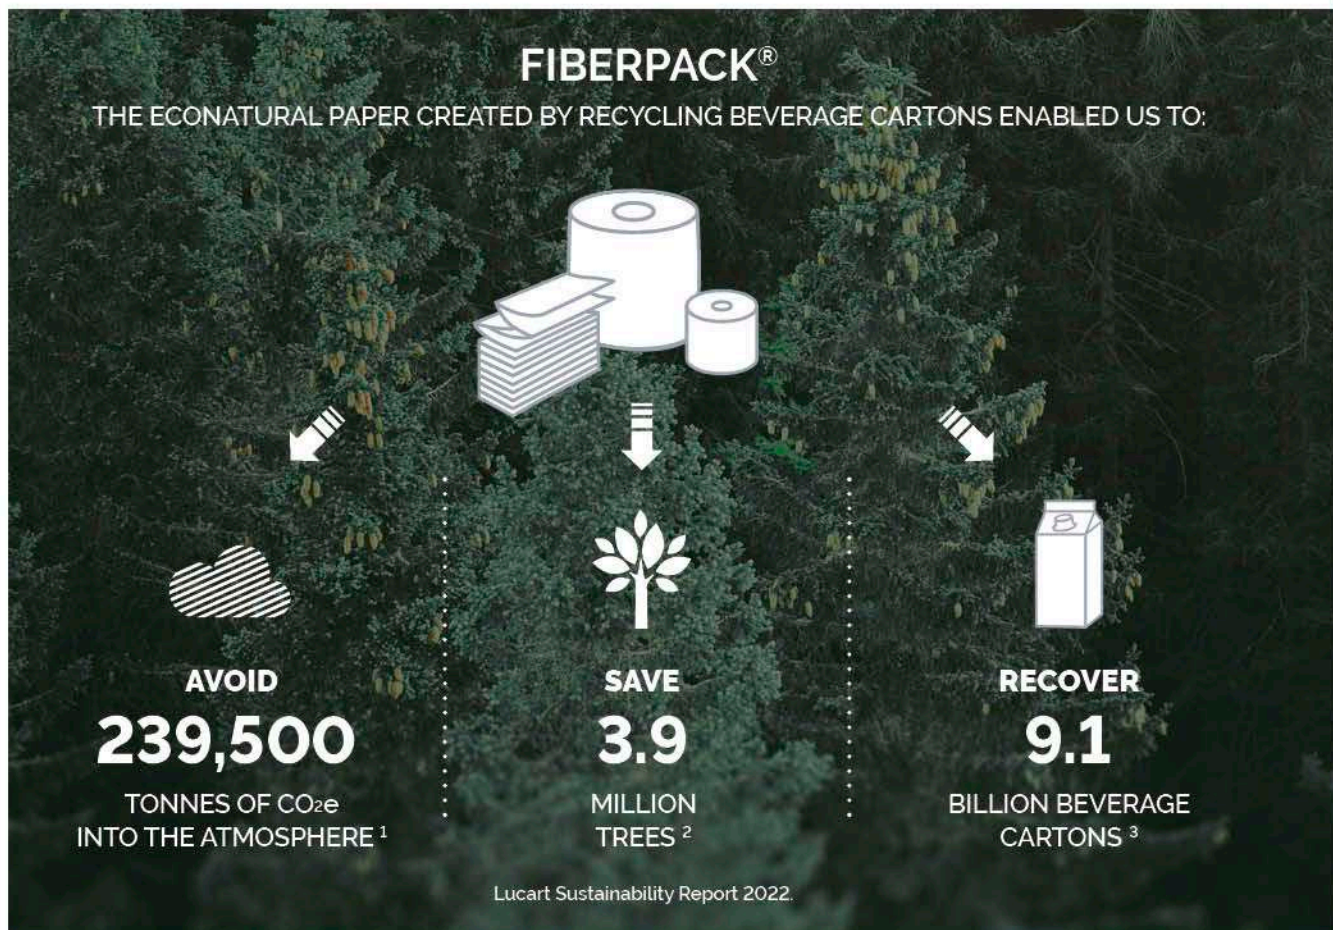

RECYCLING WASTE OF BEVERAGE CARTONS

THE FIGURES OF SUSTAINABILITY

SUSTAINABILITY CONCRETE, THEREFORE MEASURABLE.

SOURCES: ¹ European Union Life Cycle Database (ELCD) ² United Nations Environment Programme, Report 2011: Towards a Green Economy. ³ Considering 1L beverage cartons.

Recycle waste, save forests, limit emissions.

Faced with a selection of sustainable products, today the world expects tangible results for the environment.

EcoNatural project guarantees a tangible and measurable **eco-friendly solution**.

Indeed, considering the tonnes of **Fiberpack®** paper produced, in 2013-2022, Lucart contributed to the **recovery of over 9.1 billion 1L beverage cartons**, covering a distance equal to 52 times the planet's circumference. It **saved more than 3.9 million trees**, for a surface area equivalent to 13,400 football pitches and **avoided CO₂e emissions emitted into the atmosphere exceeding 239,500t**, equal to the emissions of 1,842,162 journeys by car from Paris to Frankfurt.

Plus, in 2017-2022 period, Lucart Professional recycled the aluminium and polyethylene parts of **7.8 millions** of beverage cartons thanks to the production of **ALPe®** dispensers.

The infographic is set against a background of a dense green forest. At the top, the text 'AL.PE®' is centered. Below it, the phrase 'THE DISPENSERS CREATED BY RECYCLING BEVERAGE CARTONS ENABLED US TO:' is written. A horizontal row of five white line-art icons represents different dispenser models: a round wall-mounted one, a freestanding one, a wall-mounted one with a tap, a wall-mounted one with a tap and a small display, and a wall-mounted one with a tap and a small display. A white arrow points downwards from the middle dispenser icon to a single white line-art icon of a beverage carton. Below the carton, the text 'RECOVER 7.8 MILLION BEVERAGE CARTONS ³' is displayed. At the bottom, '2017-2022 Lucart results.' is written.

AL.PE®

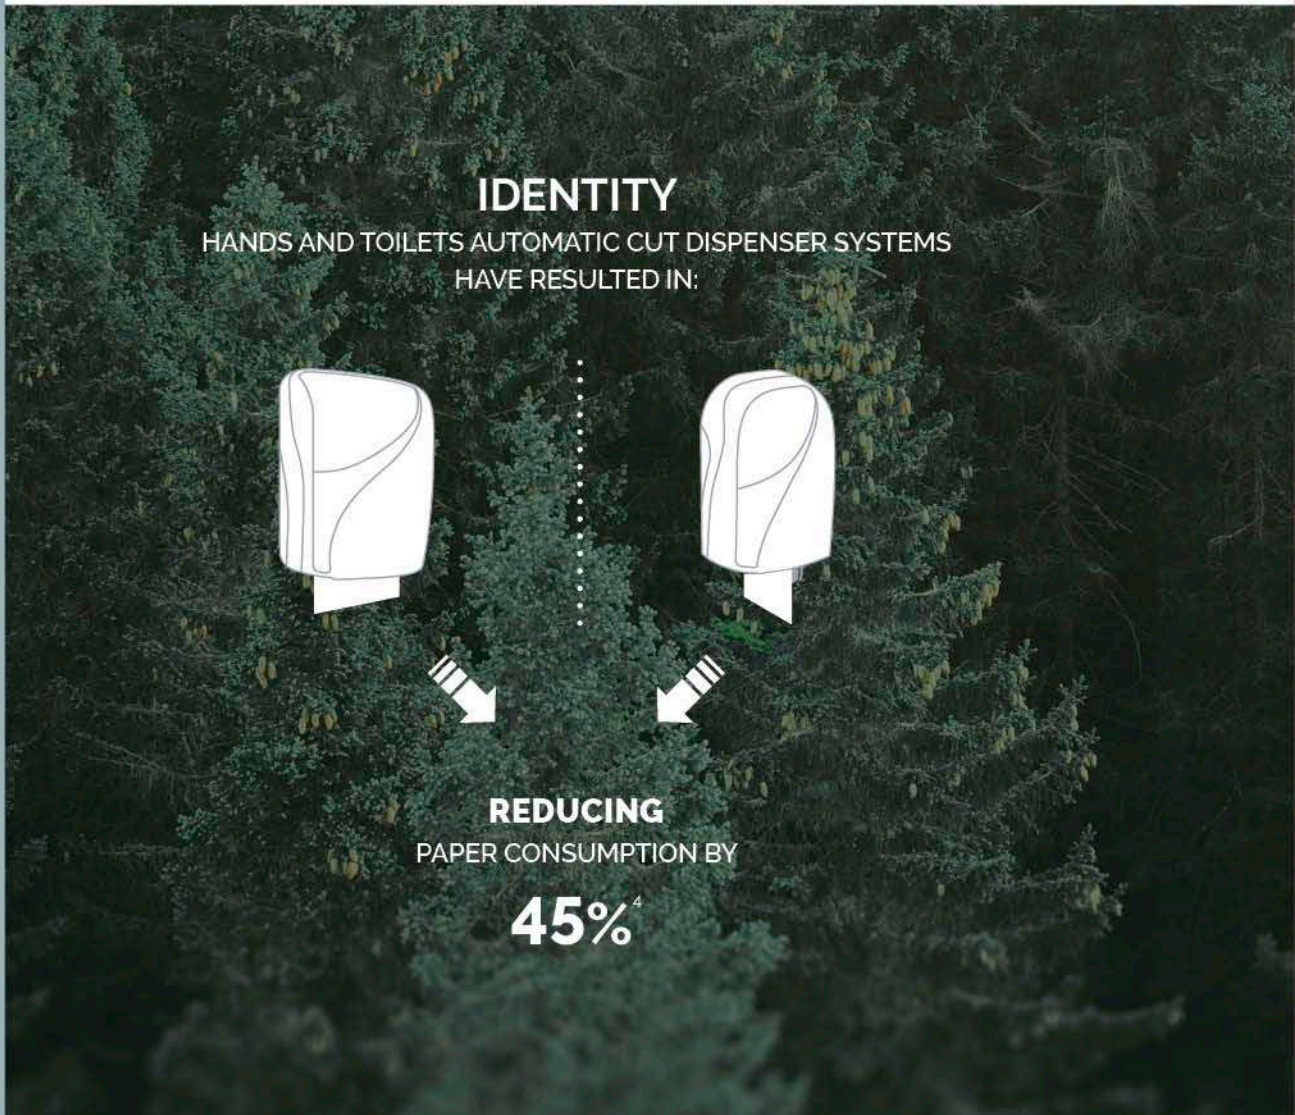

THE DISPENSERS CREATED BY RECYCLING BEVERAGE CARTONS ENABLED US TO:

RECOVER
7.8
MILLION BEVERAGE
CARTONS ³

2017-2022 Lucart results.

Reduce consumption, limit waste.

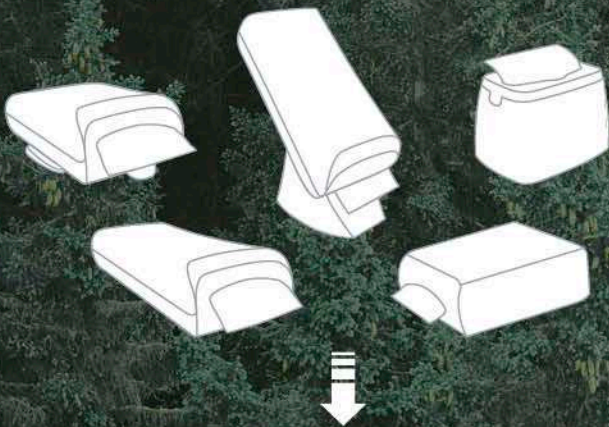

By sensibly reducing paper consumption, the Identity and L-One paper dispensing systems also provide a tangible contribution to social, environmental and economic sustainability.

The research was conducted according to ASSIRM regulations in compliance with the ISO 20252 standard. Milan 2015. ⁵ Results from research conducted by Demoskopea on a sample of users of canteens/self-service outlets, in relation to a traditional napkin dispensing system. The research was conducted according to ASSIRM regulations in compliance with industry standard ISO 20252 and the ISO 9001 standard. Milan 2017. ⁶ Research results based on comparison with a traditional airlaid roll dispensing system, conducted by Demoskopea. The research was carried out in accordance with ASSIRM norms and conforms to ISO 20252 sector and ISO 9001 standards. Milan 2019.

ENVIRONMENTAL PRODUCT DECLARATION

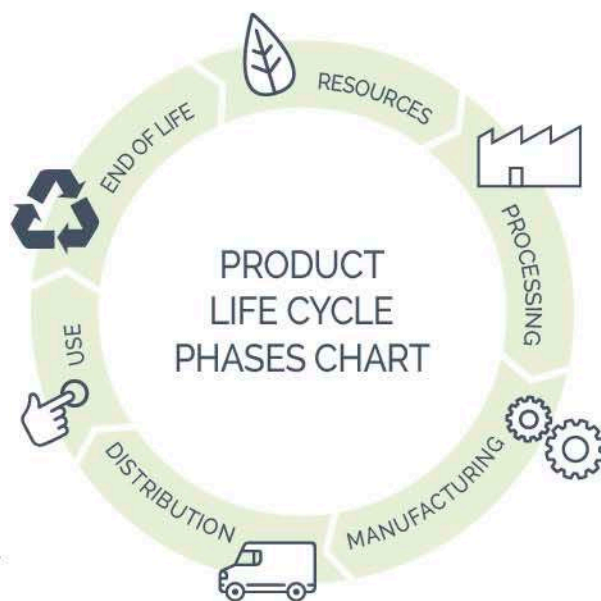

REDUCE. REDUCE. REDUCE.

The Environmental Product Declaration (EPD) describes the environmental impact related to the life cycle of a product.

The **Life Cycle Assessment** on which the **EPD** study is based enabled Lucart to not only calculate but also compare the **environmental performance** of two different types of product: tissue paper from virgin cellulose and tissue paper from recycled waste paper, highlighting the substantial environmental benefits of the latter.

UNIQUE ENVIRONMENTAL IMPACT INDICATOR

Moreover, the results of the assessment on the environmental footprint of Lucart Professional's recycled paper product and the same product made with pure cellulose have been condensed in a single indicator** calculated from the impact values on the categories of global warming, acidification, photochemical oxidation and eutrophication, which resulted as the impact categories with the highest contribution to the environmental footprint. Once again, the result is significant: **environmental impact is down by -44%**.

* Analysis conducted on 10-roll Strong Lucart toilet paper and 10-roll Eco Lucart toilet paper products, through an environmental footprint study by the Institute of Management of the Scuola Superiore Sant'Anna in Pisa, April 2020.

**Characterisation, normalisation and weighing factors from the ILCD 2011 Midpoint+ v.1.10 method.

SUSTAINABLE PACKAGING PROGRAMME

SUSTAINABILITY ALSO GOES THROUGH PACKAGING.

Sustainable packaging, a virtuous cycle,
another step towards sustainability.

At Lucart Professional, technology and environmental responsibility combine harmoniously with the aim of improving the well-being of people and the planet.

This has always been the case from a product point of view. And this is also the case today in terms of packaging.

Sustainable Packaging Programme represents Lucart Professional's commitment to increasingly sustainable packaging through the use of recycled and/or recyclable materials.

Ongoing research aimed at adopting, where technically possible, **plastic or recycled paper packaging**, as well as **recycled and recyclable cardboard cores**, and reducing packaging thicknesses and process waste.

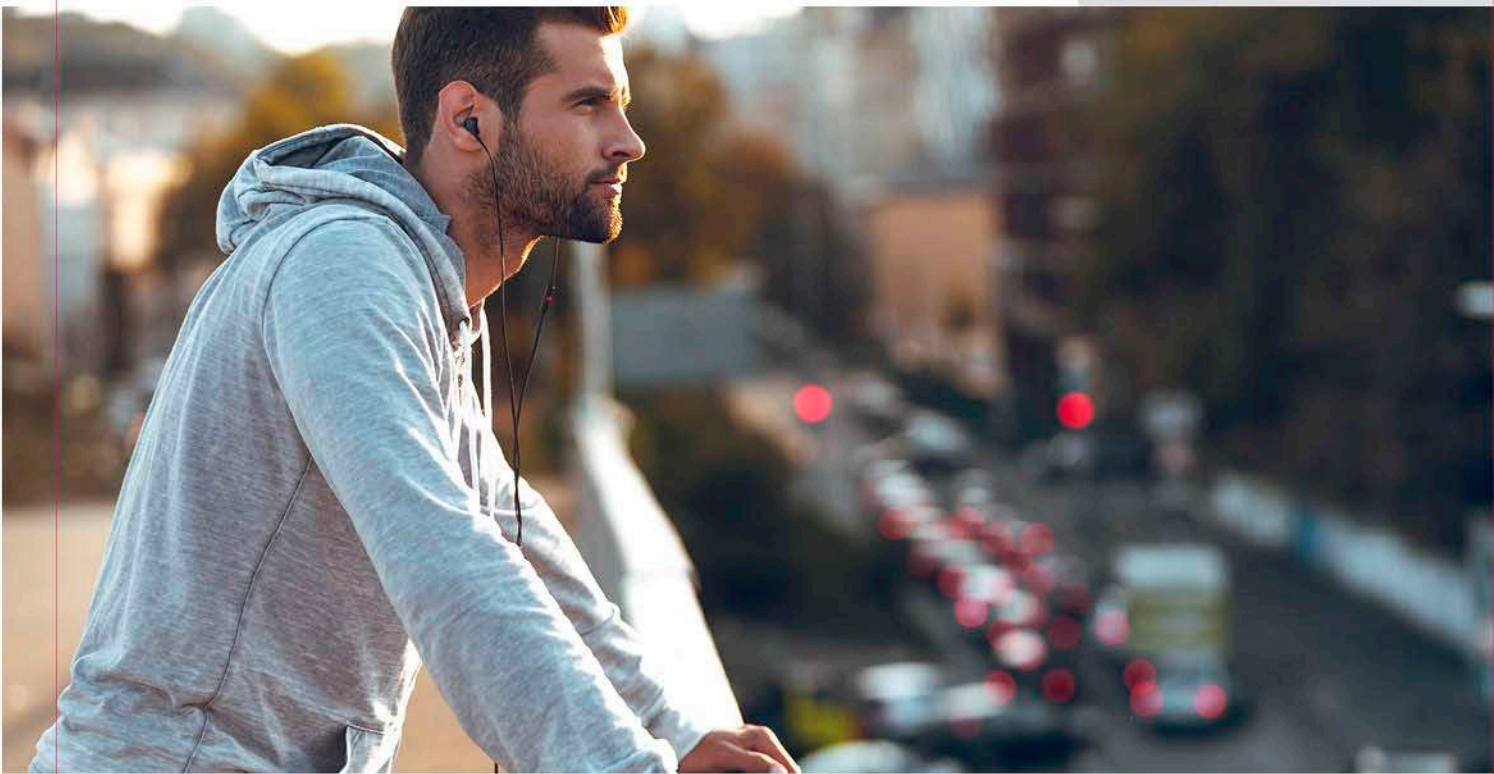

Constant research for the implementation of the most **sustainable techniques and materials** of both primary and secondary packaging.

Lucart promotes constant improvement for its products by supporting and adopting the most innovative technologies to improve the sustainability of the primary and secondary packaging of its products.

Massimo Pasquini, CEO Lucart

THE MMC[®] MODEL
(MUNICIPAL MATERIAL CYCLE)

CIRCULAR ECONOMY IN ACTION.

The MMC[®], Municipal Material Cycle project,
the new virtuous recycling education model
with the direct involvement of the local community.

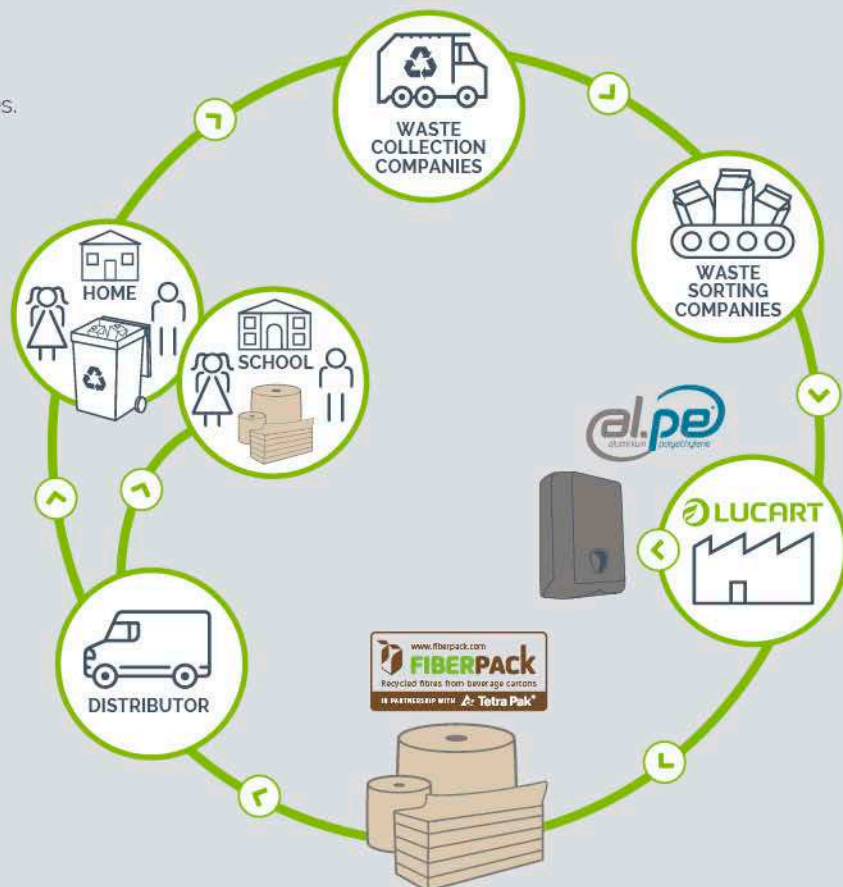

Involving the citizens and institutions of the cities to create a culture of sustainability, this is the objective of the MMC® project, first tested in Novo Mesto, and then replicated in Ljubljana, Brezice and Kranj, Slovenia, with a coverage of about 22% of the entire national population.

THE PROJECT INVOLVES THE DEVELOPMENT OF A CIRCULAR FLOW:

Used beverage cartons are collected by students' families.

By involving the local waste disposal company, Lucart receives the used beverage cartons and turns them into new products of the Lucart Professional EcoNatural line.

The products are sold, together with the related dispensers, to a local distribution partner that will distribute them in the bathrooms of offices, schools, public companies and sports centres in the area where the cartons have been collected.

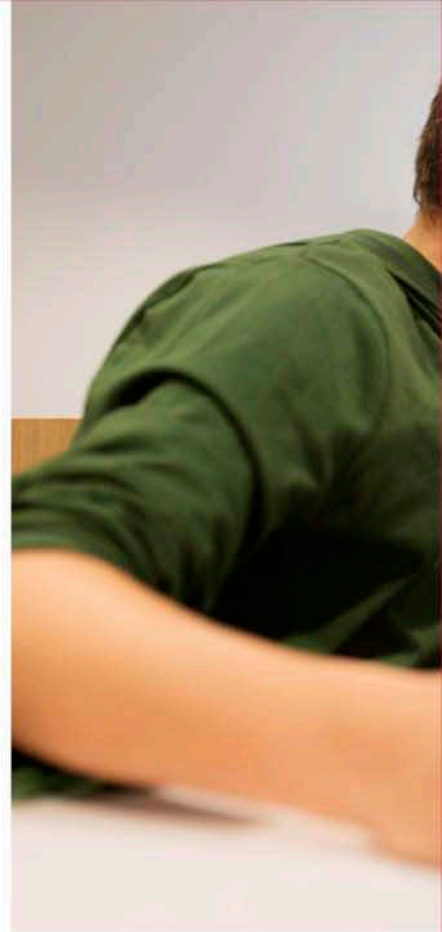

The results: 425 tonnes of beverage cartons were collected and recycled in 2022, and today almost 80% of public facilities in Novo Mesto use toilet paper made from recycled beverage cartons.

The aim is to replicate it soon on a large scale across Europe, in a gradual process of internationalization.

THE PROJECT FOR SCHOOLS

THE CIRCULAR ECONOMY PUTS ON THE TEACHING CAP.

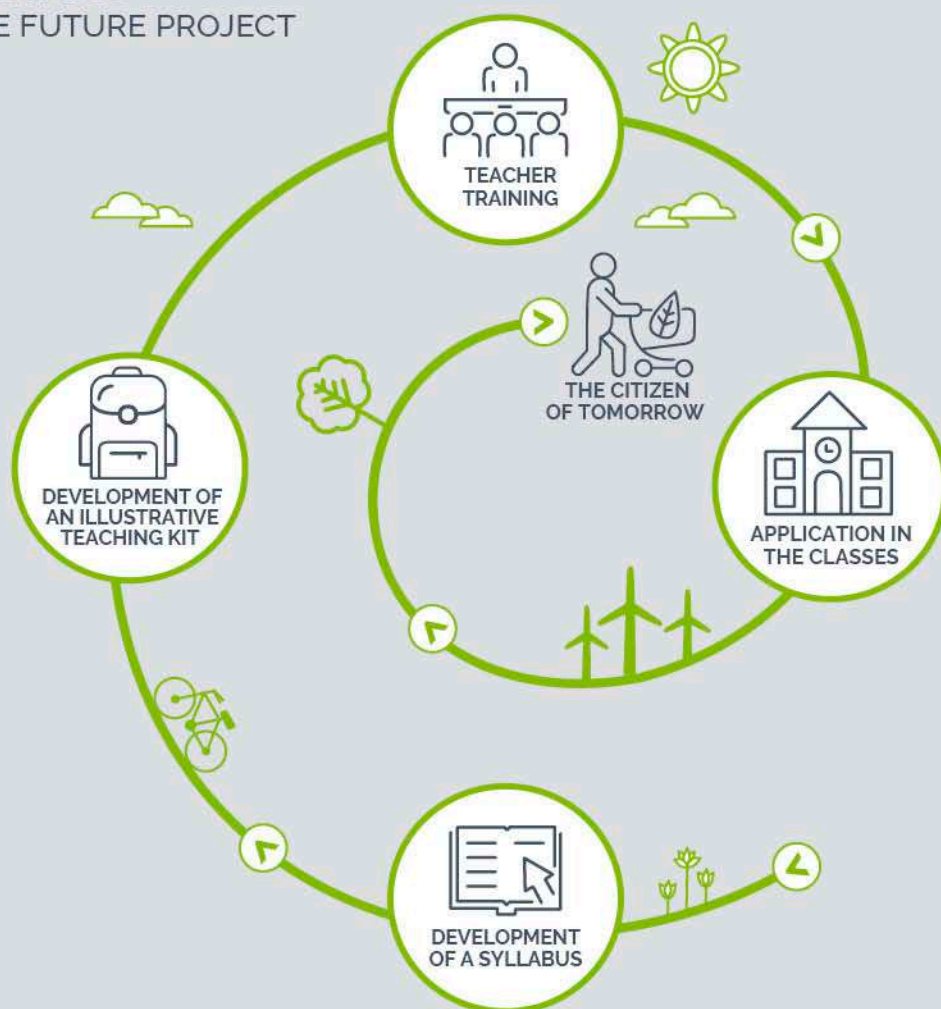

The project promotes the principles of circular economy in schools to educate young generations to the values of sustainability.

A European project to promote a **new awareness** of the principles of **circular economy** in schools, where nothing goes to waste and everything turns into a **resource**.

The project provides **targeted training** on circular economy issues for the teachers of the schools involved in the project, who in turn will train students through workshops, discussions, analyses and other practical and extra-curricular activities.

FROM SCHOOL
TO THE FUTURE PROJECT

THE TOOLBOX
FOR THE SALES CHAIN

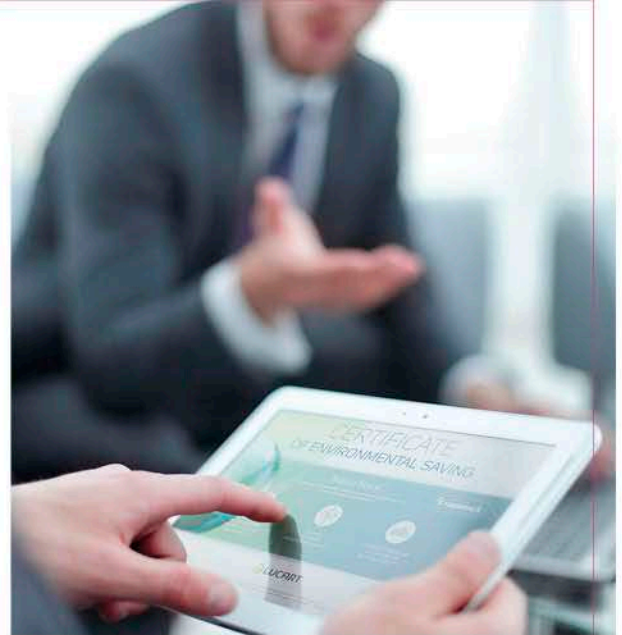

ENHANCE, SIMPLIFY.

The tools provided by Lucart Professional along the whole sales chain so that you can assess the extent of your ecological commitment or to help you and your customers conduct business.

1.

L'ENVIRONMENTAL SAVING CALCULATOR

This is an online application that enables you to palpably appreciate the environmental contribution deriving from the choice to purchase Fiberpack® products, with the related certificate that highlights the number of beverage containers recycled, the tonnes of CO₂e avoided and the number of trees saved.

2.

LUCART CONSUMPTION SIMULATOR

This is a web app used to estimate the consumption generated with Lucart dispensers to perfect the sales proposal prepared by a distributor.

3.

L-ONE WEB CONFIGURATOR

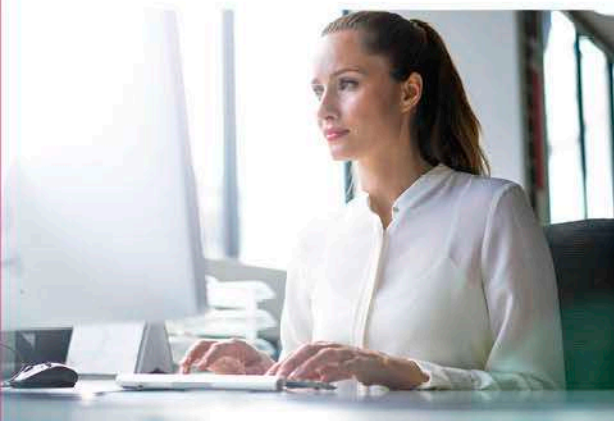

The L-One Food Service dispensers have spaces dedicated to communication, which the end customer can customize, through an online configurator, to present menus, evenings or events, starting from scratch or from pre-set templates.

4.

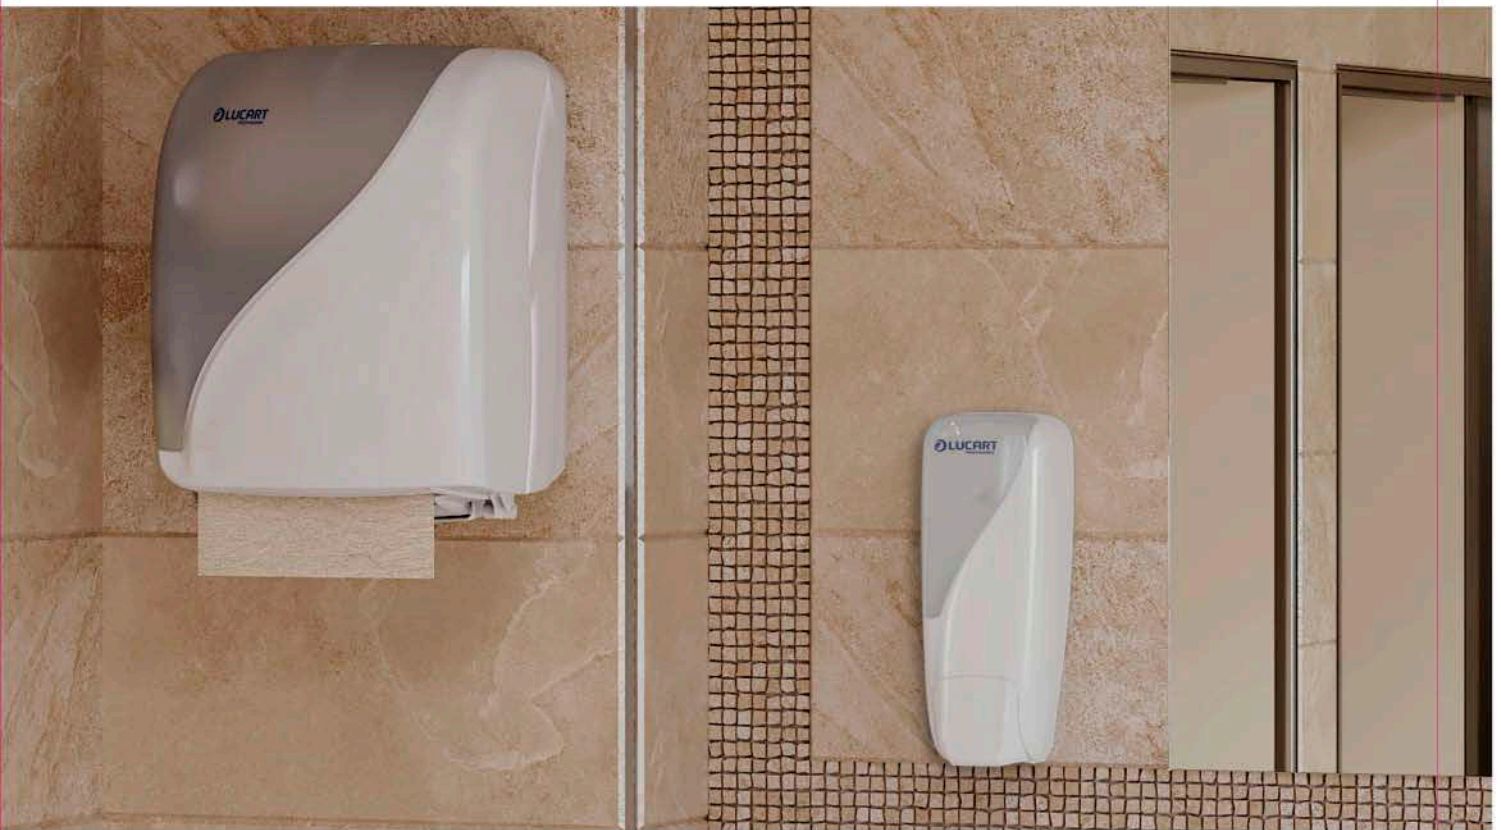

LUCART PROFESSIONAL DESIGN STUDIO

An innovative online tool to enable customers to create their advertising message on leaflets or catalogues in line with Lucart Professional's communication format.

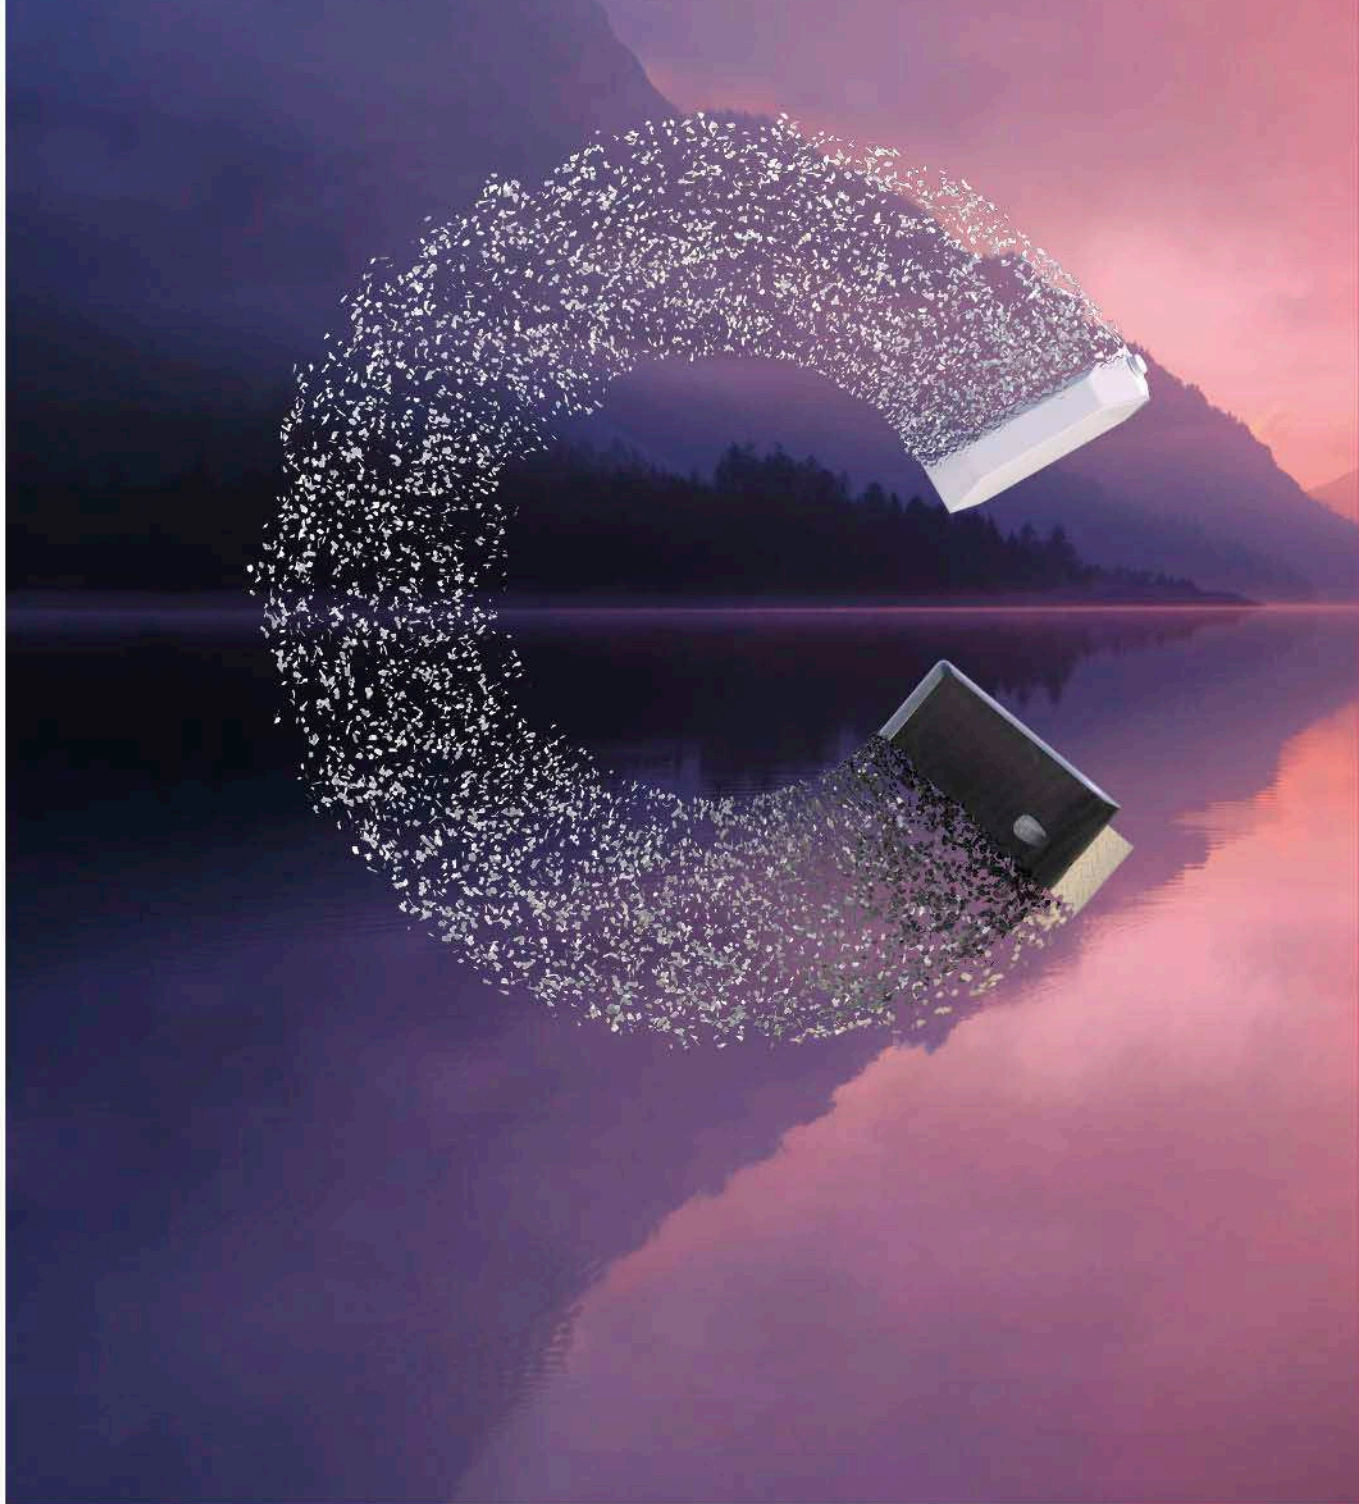

**INNOVATION
BECOMES
THE SOLUTION.**

The Away From Home sector is always after concrete and innovative solutions.

Constant **Research and Development** enables Lucart Professional to effectively meet these specific needs with a wide range of paper products and dispenser systems that combine performance, hygiene and sustainability.

ECONIA

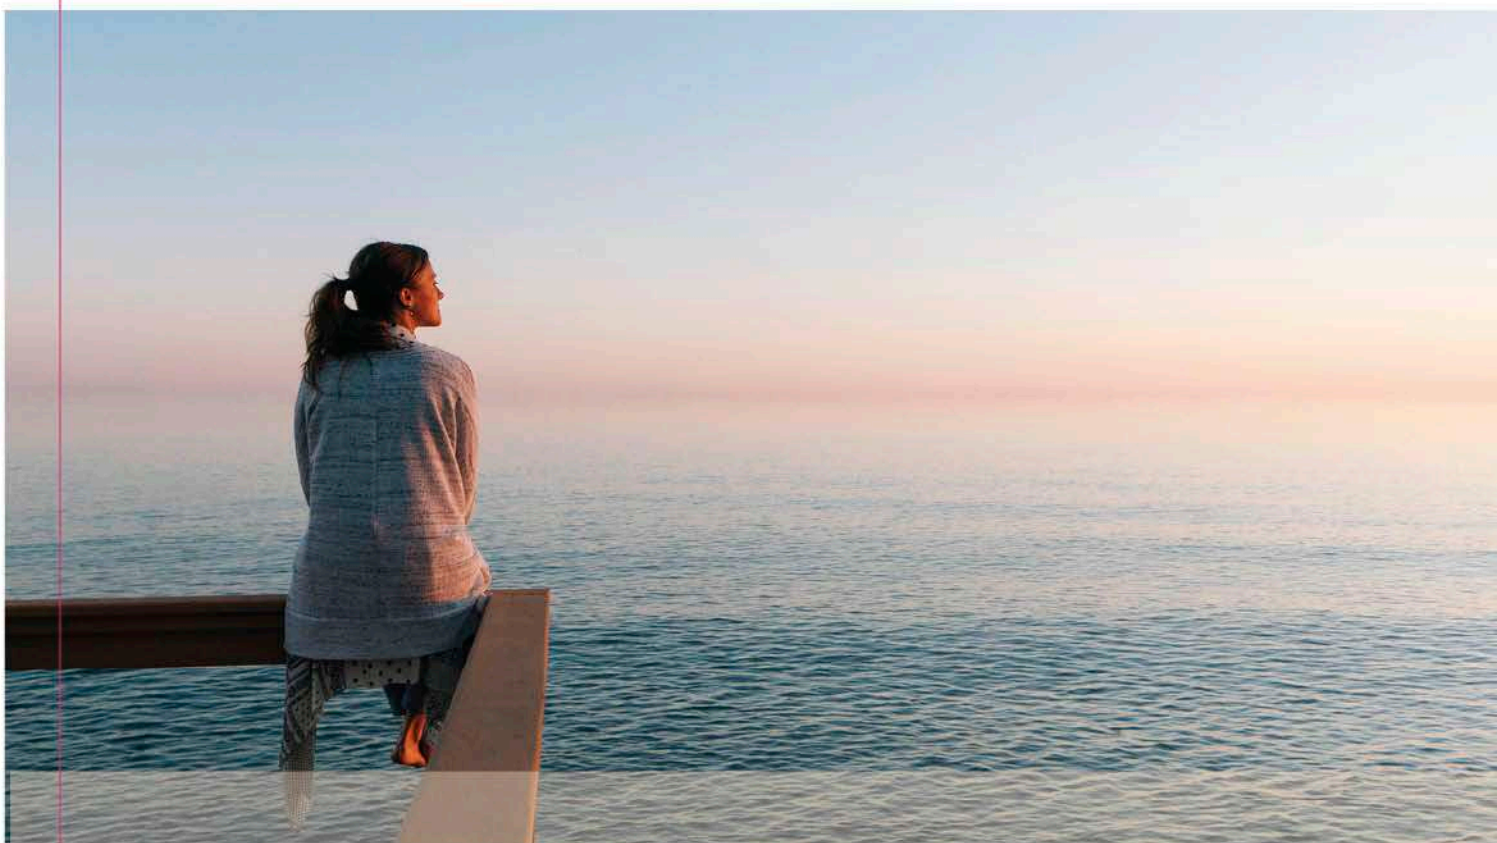

ECONATURAL

ECONATURAL

**CIRCULAR,
CERTIFIED.**

EcoNatural is an eco-friendly **PAPER and DISPENSER** system, fully certified and concrete example of circular economy.

THE CIRCULAR PAPER AND DISPENSERS SYSTEM.

Lucart Professional gives new life to beverage carton components: it produces **Fiberpack**[®] from cellulose fibres to make paper, and uses aluminium and polyethylene to make l'**AL.Pe.**[®], the certified recycled raw material used for making dispensers.

EcoNatural is the hygiene solution of the future: a choice of quality for your customers and respect for the planet.

EcoNatural toilet papers and hand towels are recognised as **Climate Neutral**, as CO₂e emissions produced throughout their life cycle are reduced or offset by Lucart.

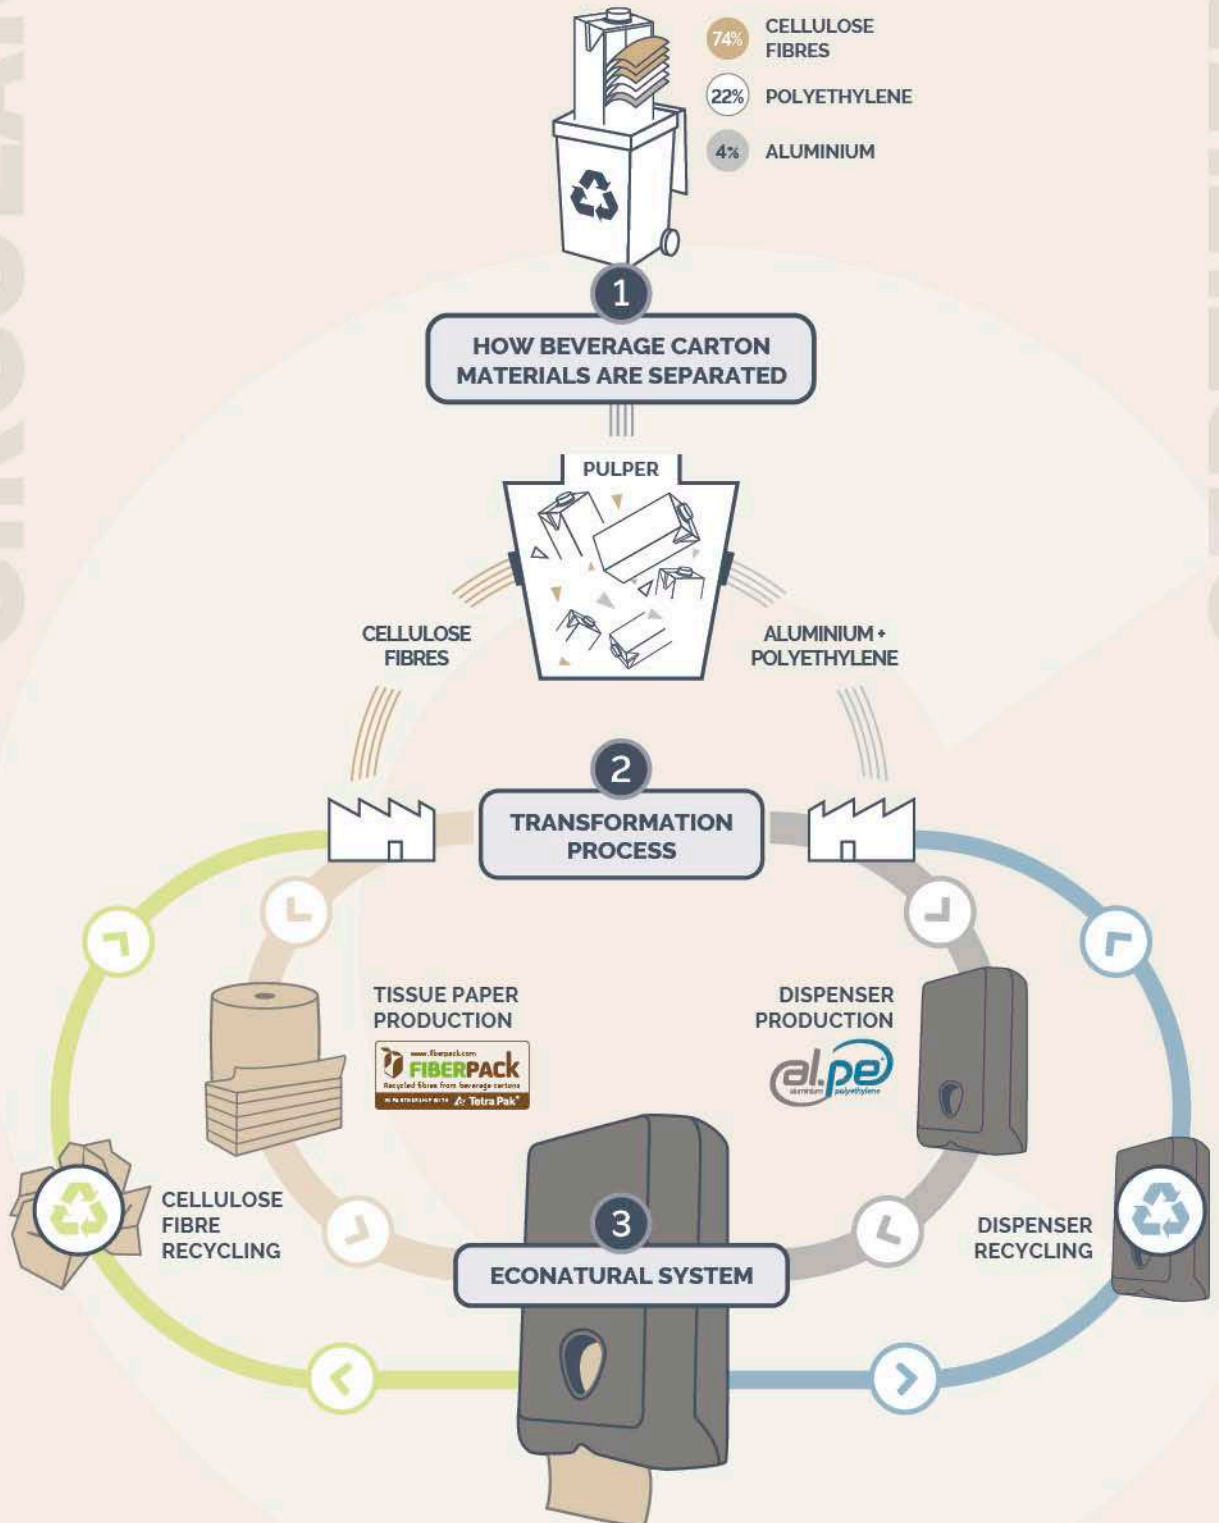

CIRCULAR, CERTIFIED...

CIRCULAR

CERTIFIED

RECYCLING WASTE OF BEVERAGE CARTONS

ALSO CLIMATE NEUTRAL.

EcoNatural's road to sustainability has reached a new milestone aimed at further reducing its environmental footprint on the planet.

A path consisting of precise steps defined by international standards that can be summarised as **measure, reduce, compensate**.

The first step involves **measuring the Carbon Footprint** of the product, considering its entire life cycle; the second step consists of **defining and achieving specific CO₂e emissions reduction targets**; and the final step sees the **offsetting** of non-reducible emissions.

Thanks to all this today, the toilet papers and hand towels in the range, produced in the Diecimo and Laval production plants, have reached **Climate Neutrality***.

*The baseline selected for the calculation of the Carbon Footprint was the year 2021 and represented, according to PAS 2060, the reference adopted for drawing up the reduction plan and calculating the residual emissions to be offset.

ALL CERTIFICATIONS.

PAPER

Product Climate Neutrality, compliant with the PAS 2060 standard, certifies that all greenhouse gas emissions generated in the life cycle of a product over a given timeframe have been reduced or offset until they are completely zero.

The EU Ecolabel is awarded to products and services that meet stringent EU criteria designed to protect the environment, including low air and water pollution, low greenhouse gas emissions and reduced electricity usage.

FSC™ Recycled certification identifies products made with recycled paper. FSC™ is an internationally-recognised non-governmental body which promotes the responsible use of forestry resources.

DISPENSERS

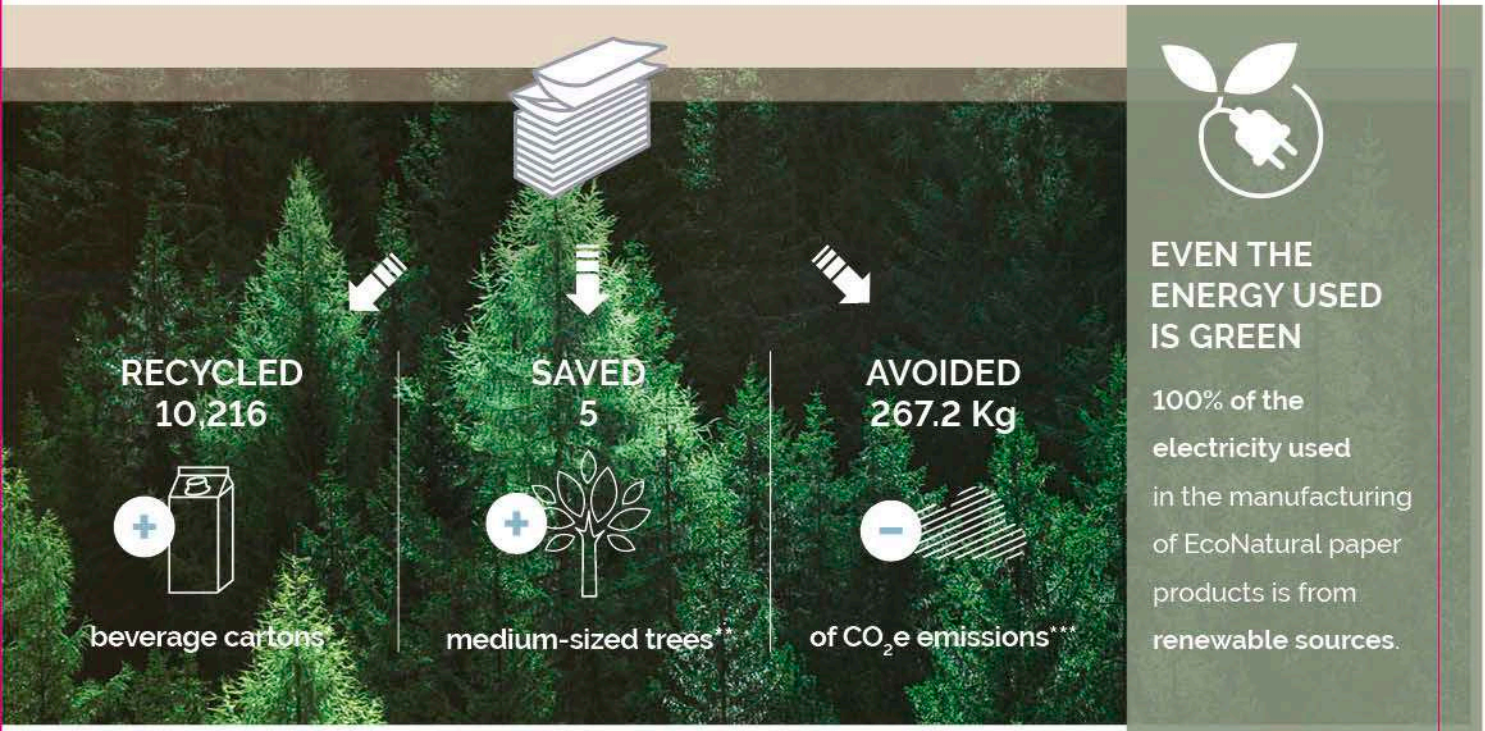

ReMade in Italy® is the first accredited product certification in Italy and Europe to verify the content of recycled material in a product. It also highlights the reduced environmental impact resulting from the use of recycled rather than raw materials.

Certification tests carried out by an accredited laboratory Bureau Veritas

IDENTITY

ALWAYS A STEP AHEAD

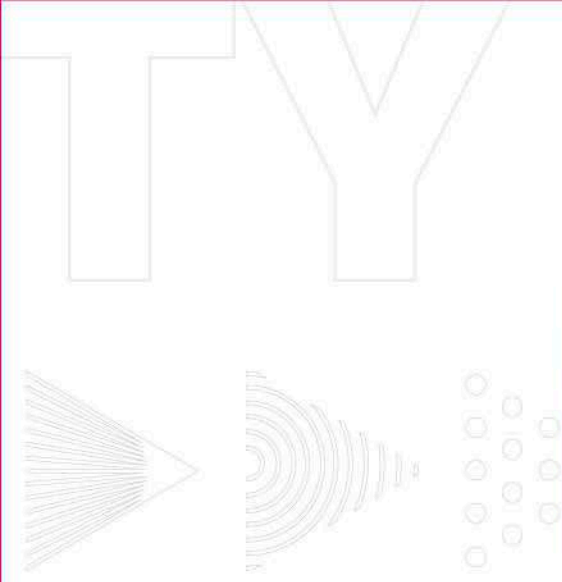

A comprehensive range of **dispensing solutions** which combine sustainability, Italian design, perfect efficiency and total hygiene.

IDENTITY. ALWAYS A STEP AHEAD.

Evolving means working to build a better present and a more sustainable future.

It is Lucart Professional's idea of progress which, with **Identity** embodies 4 values: **sustainability, design, efficiency and hygiene.**

**WASHROOM
WORKPLACE
HEALTHCARE**

IDENTITY

ALL THE ADVANTAGES OF THE IDENTITY RANGE, NOW WITH CARDBOARD CORE SYSTEM.

ANOTHER STEP FORWARD IN SUSTAINABILITY

MAXIMUM SUSTAINABILITY

Lucart Professional is committed to increasingly sustainable packaging. That is why it replaced the plastic core of the Identity rolls with a new recycled and recyclable cardboard core. Same installation convenience, same performance, greater sustainability.

PATENTED INNOVATION

Thanks to Lucart Professional's patented innovation, the new rolls with cardboard core fulfil their potential with Identity compatible dispensers. A guarantee of optimal delivery and constant service, for a satisfied user.

SIMPLER DISPOSAL

Greater sustainability but also easier maintenance and refilling, thanks to the cardboard core that can be disposed of along with any paper residues.

SUSTAINABLE PACKAGING PROGRAMME

The patented cardboard core system is a concrete example of Lucart Professional's commitment to increasingly sustainable packaging through the use of recycled or recyclable materials.

IDENTITY

IDENTITY TOUCH FREE TOWEL DISPENSER

A STEP FORWARD IN HYGIENE

HYGIENE AND SAFETY

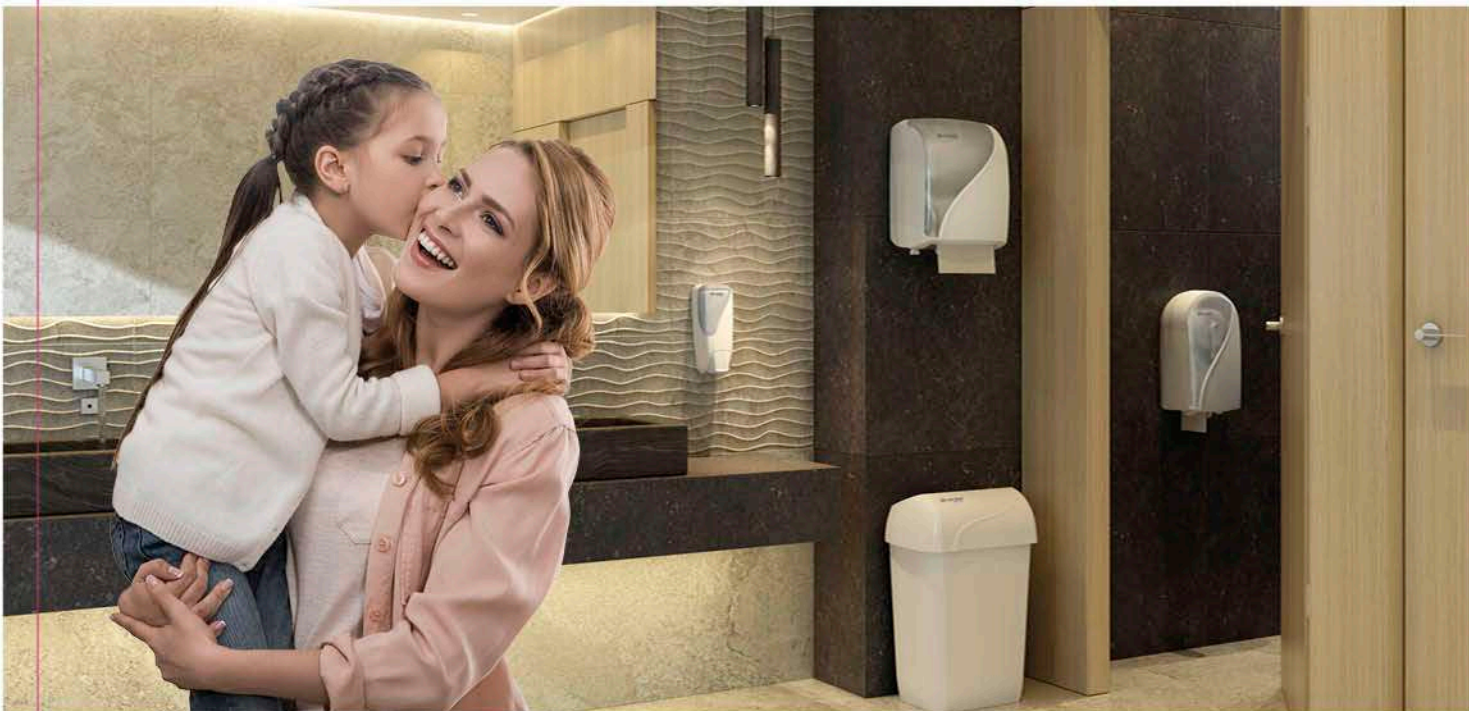

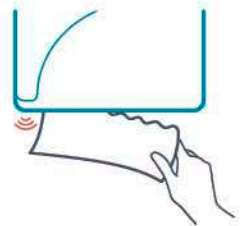

The dispenser is fitted with a motion-sensitive electronic sensor that allows paper to be issued automatically, to avoid exposure to any contamination.

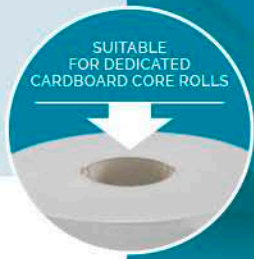

Paper towels are hygienic, safe and recommended by the WHO guidelines on good hand hygiene.

COSTS UNDER CONTROL

Thanks to custom dispensing, the dispenser encourages the user to use one sheet at a time, avoiding useless waste. What is more, the system lets you customise the sheet length and adjust sensor sensitivity as well as the paper dispensing interval.

NO SERVICE INTERRUPTION

Should the batteries run out, the dispenser will continue to work with the handy push bar system.

EASY INSTALLATION AND MAINTENANCE

Should the Identity hands dispenser need to be replaced, no additional holes will be required. The LED indicates proper operation with a blue light, low batteries with a blinking red light, and fully depleted batteries with a steady red light so that they can be easily replaced.

HOW IT WORKS

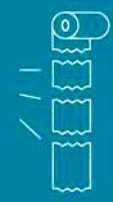

CUSTOMISATION OPTIONS

The control panel makes it possible to adjust:

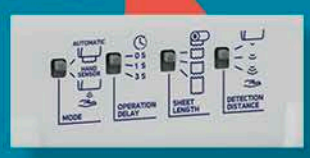

Standby time between two dispensed sheets:
0 sec; 1 sec; 3 sec;

Sheet tear off length: 20 cm; 25.5 cm; 30.5 cm;

Sensor sensitivity:
7.5 cm; 10 cm; 15 cm.

The dispenser works with D-type batteries for up to 100,000 cycles, or with a mains socket via a practical adapter.

IDENTITY

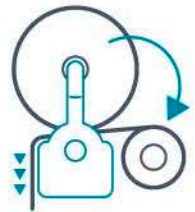

IDENTITY AUTOCUT TOILET DISPENSER 2.0

A STEP FORWARD IN SAVINGS

THE ROLL CAN BE USED UP TO THE LAST SHEET

Thanks to the new internal mechanism, the low roll is used up to the last sheet, allowing an estimated saving up to 18 metres of paper for each roll.

Furthermore, the simultaneous presence of 2 rolls in the dispenser reduces the risk of service interruptions.

-45%* LOWER CONSUMPTION

Thanks to automatic cutting, the dispenser only dispenses one sheet at a time, promoting less paper use.

Less waste turns into increased savings for the manager.

* Results from market research conducted by Research Factory on a representative sample, compared with a traditional Jumbo Lucart Professional dispenser and a traditional Lucart Professional folded hand towel dispenser. The research was conducted according to ASSIRM regulations in compliance with the ISO 20252 standard. Milan 2015.

HOW IT WORKS

IDENTITY AUTOCUT TOILET "STUB-ROLL"

The roll being used must be moved to the dedicated housing once it reaches the diameter indicated by the adhesive placed on the arm.

The new roll will then be loaded and automatically activated.

ABSOLUTE HYGIENE

The single-sheet dispensing system ensures the customer only comes into contact with the sheet required, thus preserving the rest of the product from potential contamination.

HYGIENE AND CLEANLINESS

Controlled delivery reduces the risk of waste and blockages resulting in a cleaner and tidier bathroom as well as a satisfied and loyal customer.

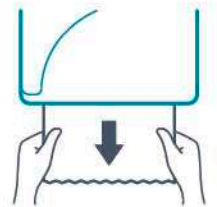

IDENTITY

IDENTITY AUTOCUT TOWEL DISPENSER 2.0

A STEP FORWARD IN CONVENIENCE

ULTRA-SMOOTH DISPENSING

The new Smooth-Cut internal mechanism allows for smooth paper dispensing and the certainty of always having intact paper available, even with wet hands, for an optimal user experience.

-45%* LOWER CONSUMPTION

Thanks to automatic cutting, the dispenser only dispenses one sheet at a time, promoting less paper use, reducing waste, safeguarding the environment, and increasing savings for the manager.

* Results from market research conducted by Research Factory on a representative sample, compared with a traditional Jumbo Lucart Professional dispenser and a traditional Lucart Professional folded hand towel dispenser. The research was conducted according to ASSIRM regulations in compliance with the ISO 20252 standard. Milan 2015.

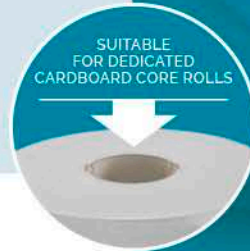

HOW IT WORKS

EASY DISPENSING WITH THE "SMOOTH-CUT" SYSTEM

The re-engineering of the dispenser allows for easier paper dispensing: the force required for the operation is reduced by 15%**.

**Average of the result obtained from analyses carried out with internal method with respect to the previous version.

HYGIENE AND SAFETY

The single-sheet dispensing system ensures the customer only comes into contact with the sheet required, preventing potential contamination. Paper towels are hygienic, safe and recommended by the WHO guidelines on good hand hygiene.

LESS FREQUENT REFILLS

The easy consumption display, optimised sheet and controlled delivery result in significant savings in costs as well as of maintenance and recharging times.

IDENTITY

IDENTITY SOAP RANGE 1000

A STEP FORWARD IN QUALITY

PREMIUM LIQUID WITH ARGAN OIL

A liquid formula with a **smooth and creamy texture** and an **elegant scent of camellia**, which make it ideal for spaces where quality and well-being are of utmost importance.

FREQUENT FOAM WITH ALOE VERA EXTRACT

A hypoallergenic foamy hand soap enriched **with aloe vera extract**, known for its energising, moisturising and purifying properties. With its neutral fragrance, it is also ideal for use in settings such as food preparation areas.

CLASSIC FOAM WITH ALMOND OIL

A foamy hand soap enriched with **almond oil**, which is well known for its emollient properties. Dermatologically tested, it gently **nourishes and revitalises the skin**.

ESSENTIAL FOAM WITH NEUTRAL FRAGRANCE

A foamy hand soap with a neutral fragrance, providing a **pleasant feeling of freshness and cleanliness**. It is dermatologically tested and gentle on the skin. It is versatile enough to be used in any context.

FURTHER INFORMATION

SOAPS MADE BY LUCART

The whole range is produced in Lucart Group's production plants: a guarantee of quality and of a controlled supply chain. All soaps, available in the new 1-litre format, are also made with natural, biodegradable ingredients.

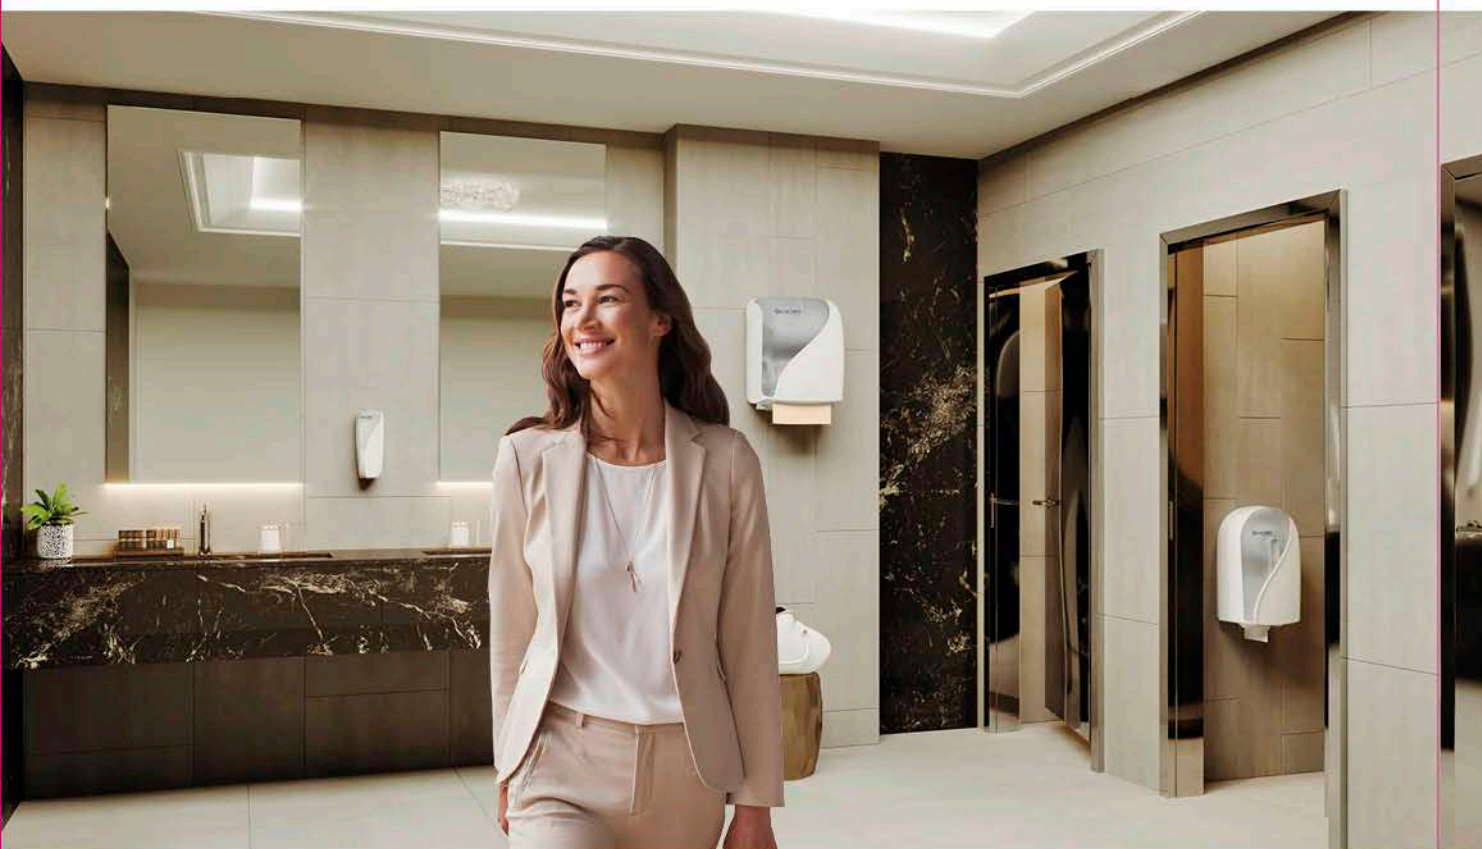

DESIGN AND EFFICIENCY

A distinctive, timeless look that complements and blends into any environment. Italian design, embodying the excellence of Lucart Professional, which is even more beautiful in the black or white versions.

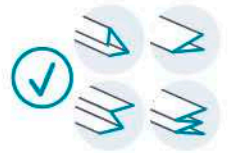

HYGIENIC AND PRACTICAL

Each refill ensures airtight protection of the liquid contained thanks to the supplied disposable pump, ensuring safety and hygiene. It is also designed to be easy and straightforward to install.

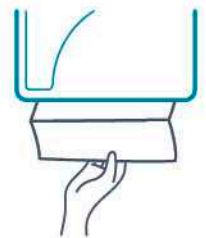

IDENTITY**IDENTITY FOLDED HAND TOWEL DISPENSER 2.0 & COMPLEMENTARY****A STEP FORWARD IN EASE OF USE****GREATER VERSATILITY**

The new hand towel dispenser is compatible with all the various types of folded hand towels of the Lucart Professional range: C, V, Z and M, including slim formats, without requiring an adapter.

**EASY DISPENSING**

The redesigned and refined design of the hand towel dispenser ensures more effective dispensing of folded hand towels for the customer: no paper tearing with both dry and wet hands.

**HOW IT WORKS****EASY PAPER DISPENSING**

The hand towel dispenser has been redesigned to ensure more effective dispensing and complete compatibility with all types of folded hand towels.

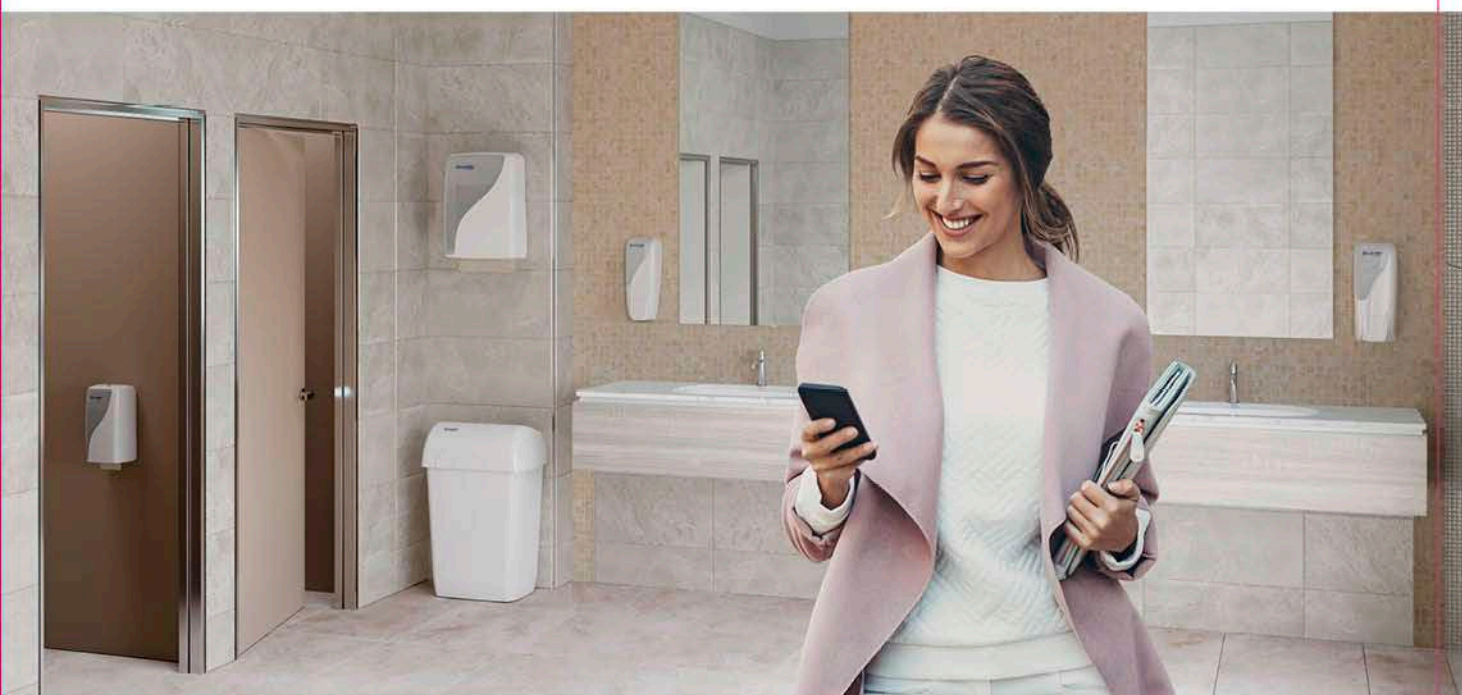

DESIGN AND EFFICIENCY

A distinct style with soft lines and easy to clean for a complete range that does not compromise on efficiency, resistance and ease of maintenance and refill.

HYGIENE AND CLEANLINESS

Thanks to the integrated bag holder, the bin maintains a neat appearance, keeping the waste bag holder hidden from the user. For a tidier and cleaner bathroom and a satisfied and loyal customer.

AQUASTREAM

THE NO CLOG PAPER THAT TAKES JUST SECONDS TO DISSOLVE

AquaStream is the innovative product range that effectively prevents clogged toilets. It's ideal for all bathrooms with piping that is thin, winding or lacking gradient.

THE SOLUTION THAT PREVENTS THE RISK OF CLOGGING

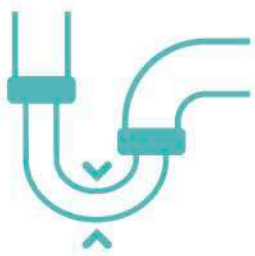

HAND TOWELS

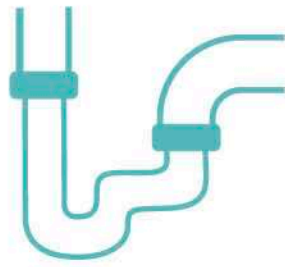

A bathroom with narrow, winding or with a low gradient pipes can become easily clogged with traditional toilet paper. Likewise, a toilet with standard piping can be damaged if a paper hand towel is accidentally thrown in it. These are clogging issues that cause inconveniences, such as bathrooms out of order, repair costs, dissatisfied customers.

The range of **AquaStream** toilet paper and hand towels is the solution to this.

L-ONE

THE SINGLE-SHEET DISPENSER SYSTEMS IDEAL FOR ANY AREA OF USE

Guaranteed savings, hygiene and sustainability compared to traditional systems.

L-ONE

SINGLE DISPENSING SAVING GUARANTEED

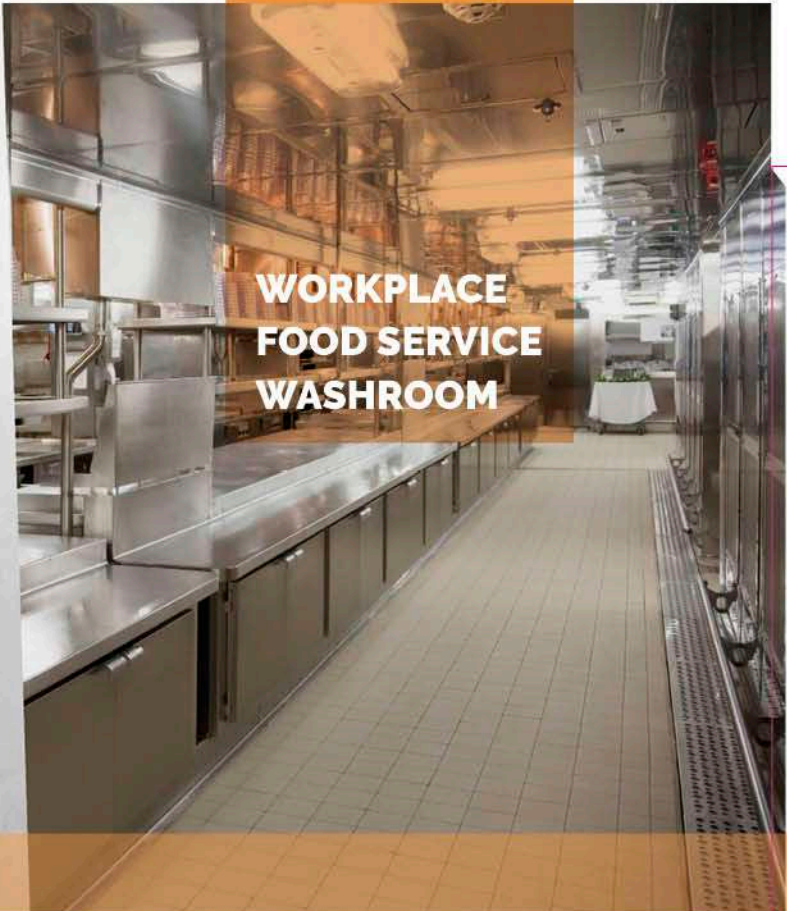

L-ONE

Single-sheet dispenser systems that combine savings and hygiene.

An **exclusive design** that features functionality and style.

Pure cellulose, Fiberpack® and regenerated paper that join quality raw materials with the highest respect for the environment.

**WORKPLACE
FOOD SERVICE
WASHROOM**

WORKPLACE AREA

WORKPLACE WASHROOM AREA

FOOD SERVICE AREA

L-ONE**WORKPLACE AREA**

The L-One dispensers contain centre pull wipers dispensed one sheet at a time. Compact and versatile, they are ideal for professional kitchens, mechanical workshops and any other industrial setting.

L-ONE FOR AIRLAID**PAPER SAVINGS GUARANTEED***

Single-sheet dispensing delivers a reduction in consumption of 70%*, meaning:

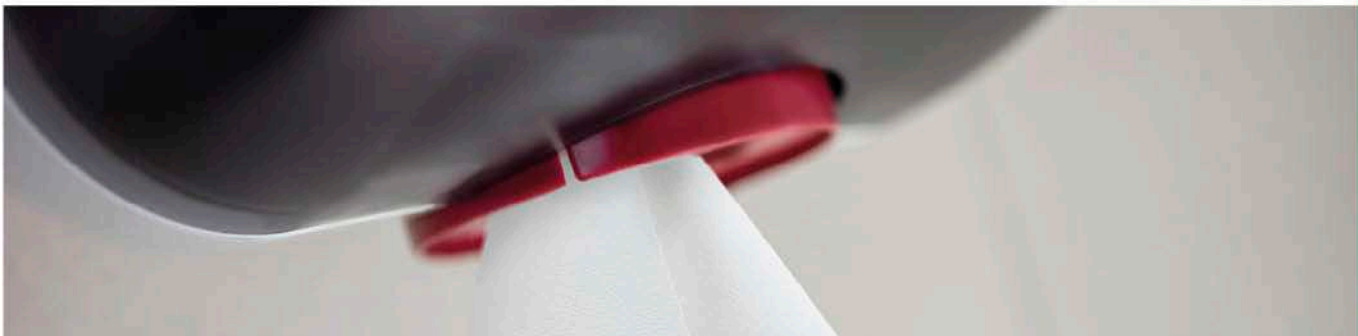

- **LESS WASTE:** fewer sheets used and less time spent refilling.
- **LOWER COSTS:** reduced maintenance, fewer refills and less transport.
- **REDUCED STORAGE:** less stockroom space required.

**PRACTICAL ONE-HAND ACTION**

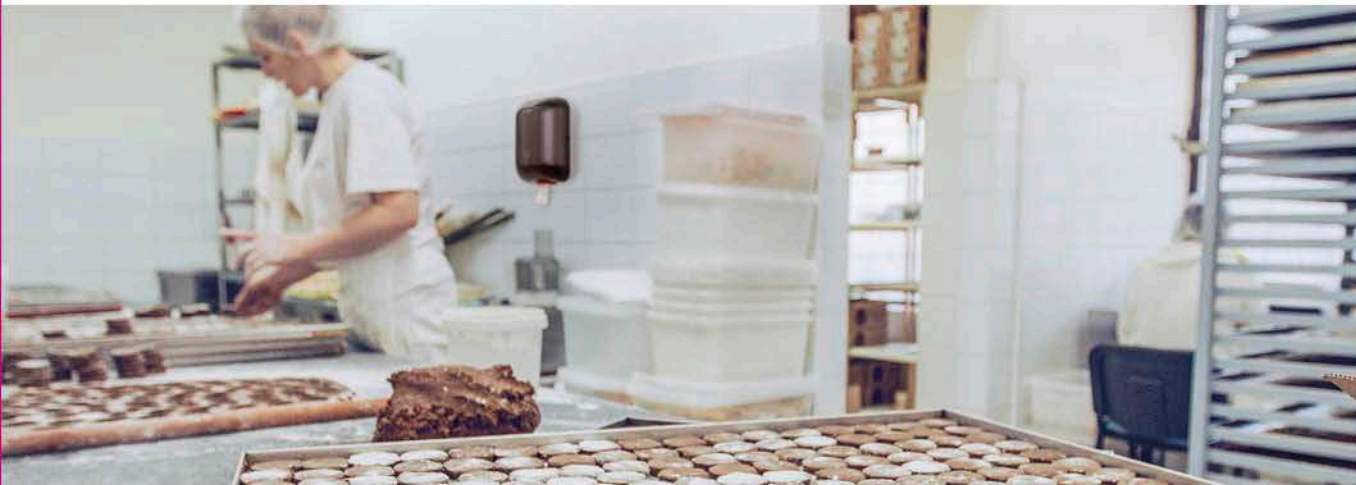

You can extract a single sheet using just one hand in a fast, simple action to ensure optimal efficiency and productivity.

**HYGIENIC AND SAFE**

The dispenser protects the roll from dust and dirt, and the single-sheet extraction system means each sheet is handled only by the person using it, eliminating possible cross-contamination in accordance with HACCP requirements.

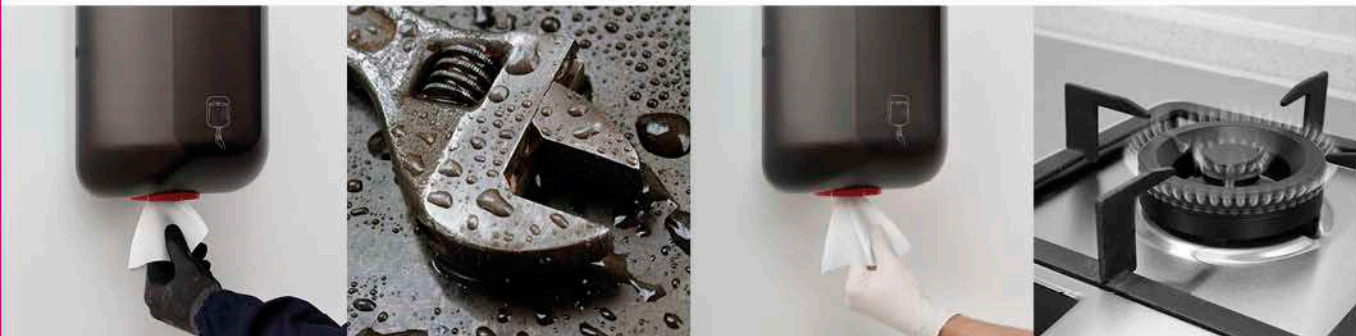

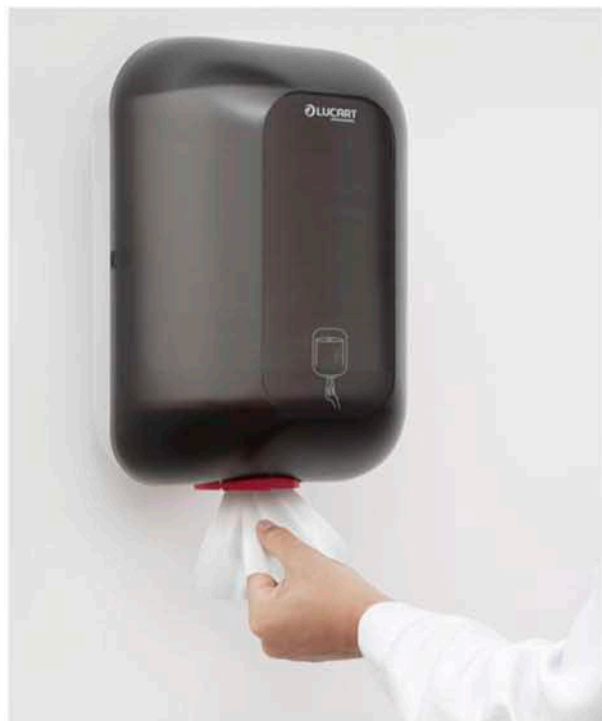

*Research results based on comparison with a traditional airlaid roll dispensing system, conducted by Demoskopea. The research was carried out in accordance with ASSIRM norms and conforms to ISO 20252 sector and ISO 9001 standards. Milan 2019.

ZENITH

THE PURE DISTINCTIVENESS OF STEEL

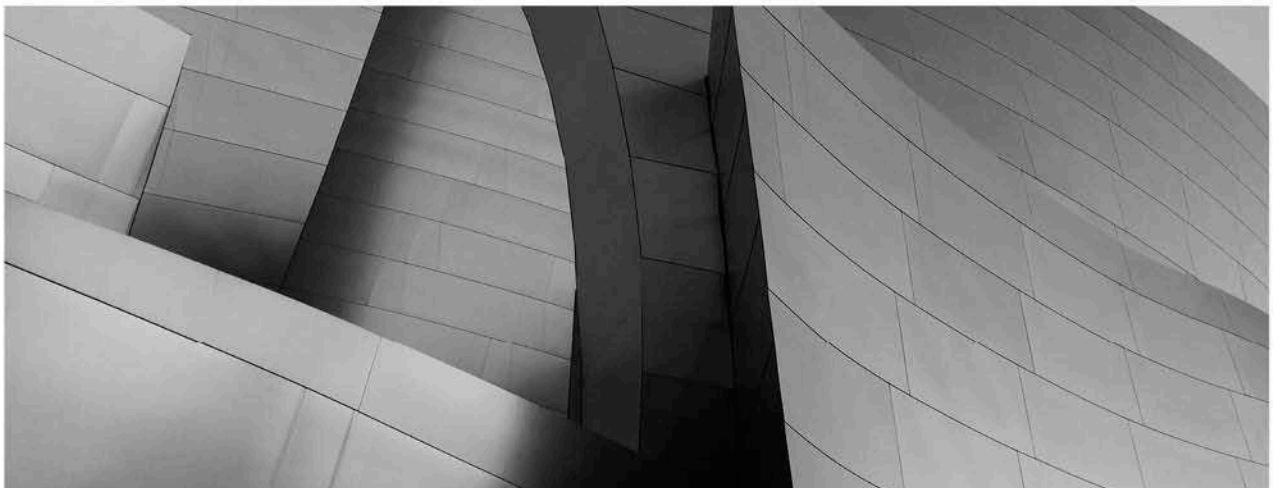

Lucart Professional offers a new shape to the future with Zenith, the range that combines the strength of the material with a unique design.

A NEW SHAPE TO THE FUTURE WITH ZENITH.

Zenith gives life and shapes steel, becoming synonymous of essentiality with lines, purity and longevity.

Zenith conquers with the personality of its contemporary and sophisticated design, enhancing as a protagonist the uniqueness of any environment.

Zenith is the apex of Lucart Professional's values of quality, durability and style.

Its linear and contemporary design makes Zenith the ideal solution for environments marked by the most sophisticated essentiality, such as:

- HO.RE.CA.
- WELLNESS
- OFFICES
- AIRPORTS
- SPORT FACILITIES.

All Zenith dispensers are made of **stainless steel**. The **brushed finish** combines elegance and practicality, ensuring **maximum hygiene** and **ease of cleaning and maintenance** without sacrificing a **refined, modern style**. In addition, the **anti-fingerprint treatment** ensures **long-lasting cleanliness** for a tidier, cleaner bathroom, a more satisfied user and a loyal customer.

TEXICELL

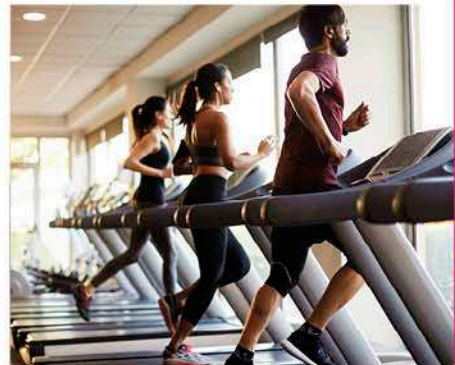

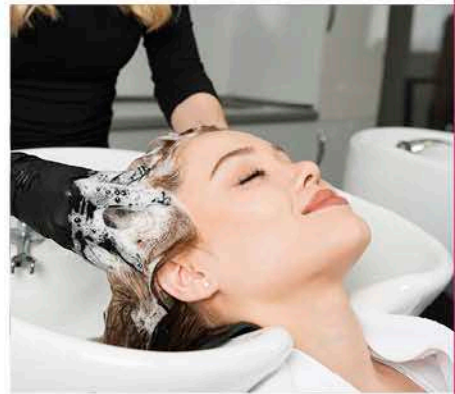

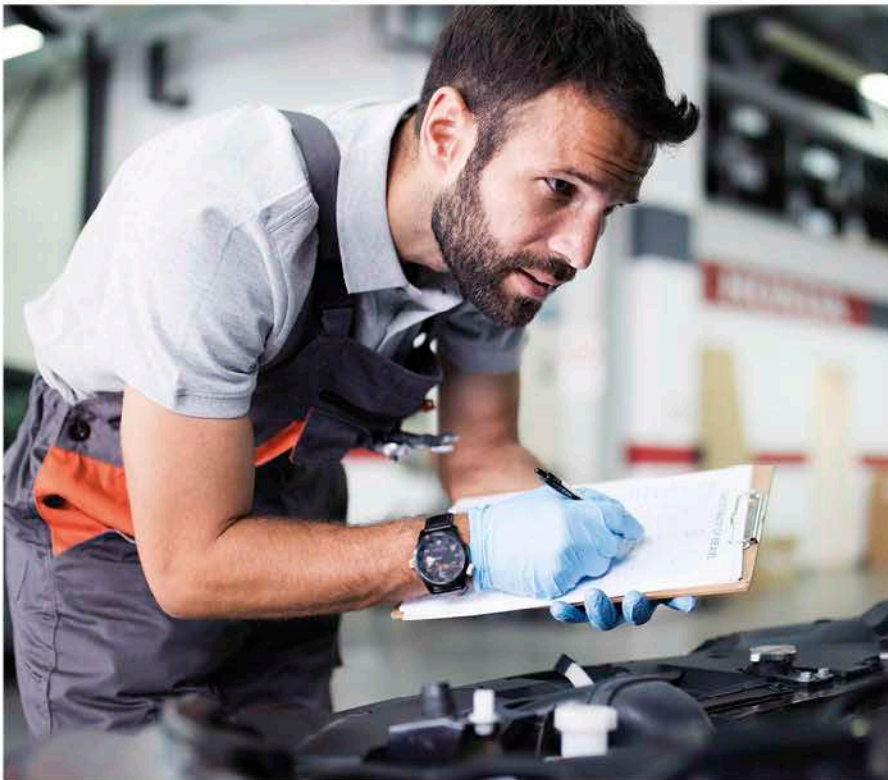

TEXICELL

THE ONE-SIZE-FITS ALL SOLUTION

The Texicell dry paper range uses Airlaid technology to deliver outstanding all-round performance.

TEXICELL

THE ONE-SIZE FITS ALL SOLUTION.

TEXICELL

The exclusive Airlaid technology, using air instead of water in the production process of pure cellulose fibres, together with the special three-dimensional weave, provide the Texicell products with an extraordinary absorbency capacity and strength, even when wet.

These specific features make Texicell the ideal solution for multiple contexts of use.

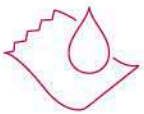

3 PERFORMANCES WITH 1 PRODUCT

THE TOUGHNESS OF FABRIC

With a cloth-like texture and the capacity to be reused up to 9 times, Texicell is truly unique.

THE ABSORBENCY OF A SPONGE

A special technique makes Texicell paper able to absorb up to 7 times its own weight.

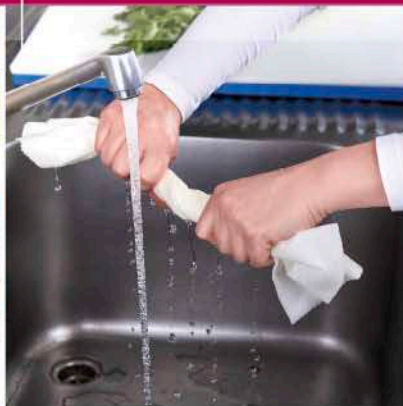

THE VERSATILITY OF PAPER

From industrial kitchens, beauty salons and rest homes to hospitals, gyms and workshops, Texicell is a perfect solution.

THE PRODUCTS FOR YOUR BUSINESS.

Lucart Professional provides a wide range of products and systems. Various solutions to meet all the needs of the professionals with a single goal: guaranteed reliability, performance and sustainability.

ECONATURAL

EcoNatural is the PAPER and DISPENSER line based on a **circular economy** model through the transformation of used beverage cartons into two new raw materials: **Fiberpack®** and **ALPe®**.

All EcoNatural products are EU Ecolabel and FSC™ Recycled. ALPe® dispensers are ReMade in Italy® certified.

ECO

Eco is a line entirely made with recycled and regenerated fibres. A wide product range that combines quality and care for the environment to meet any kind of need. All the products of the Eco line are EU Ecolabel-certified.

STRONG

Strong is the comprehensive line of products entirely made with virgin cellulose fibres, in accordance with the environmental sustainability criteria set by the PEFC forestry certification. The solution that provides high performance results and excellent quality.

AQUASTREAM

AquaStream is the range of toilet paper and hand towel that dissolve in a matter of seconds. Made with PEFC-certified virgin cellulose, AquaStream products are also EU Ecolabel certified and represent the perfect solution to prevent clogging.

TEXICELL

Texicell is the dry paper line made with the exclusive airlaid technology that employs air in the processing of pure cellulose fibres. The products thereby acquire extraordinary absorbency and resistance, providing unparalleled performance levels.

SKYTECH

SkyTech is the recycled line characterised by the distinctive blue colour.

EASY

Easy is a basic line entirely made with recycled paper, the comprehensive solution striking the ideal balance of quality and an excellent price/quality ratio.

FATO

YOUR PERSONAL TABLE STYLIST

Fato is the Lucart Group brand specialising in tissue and airlaid tableware for the Ho.Re.Ca. market.

An assortment of decorations, colours and formats to enhance the aesthetics of any room with a strictly Made in Italy style.

The brand keeps the Lucart Group's sustainable vision in its DNA. It favours raw materials from a controlled supply chain with a low environmental impact. This is confirmed by the environmental certifications achieved over the years: EU Ecolabel, FSC™, PEFC.

Fato is Lucart's answer to the Ho.Re.Ca. market's demand for a quality sustainable in the world of tablewear.

To see the complete range visit www.fato.com, you will get the new simulator, or request the dedicated catalogue.

THE FATO RANGE

➤ TABLEWEAR

An array of original and varied designs in Airlaid

A refined range of superior Airlaid items for a perfectly coordinated table décor.

With a texture which recalls the caressing softness of woven fabrics, our Tablewear products create an effortlessly elegant, exclusive atmosphere, no matter the size or location of your venue.

➤ FATO ECONATURAL

Eco-friendly napkins made with Fiberpack®

The Fato EcoNatural line is made in Fiberpack®, the material obtained from recycled cellulose fibres present in beverage cartons.

In addition to cellulose fibres, beverage cartons contain aluminium and polyethylene: thanks to Lucart's exclusive technology, these materials are not released into the environment, instead re-used in other manufacturing activities.

Fiberpack® represents an environmental and technological breakthrough created by a collaboration between Lucart and Tetra Pak®. The products of the Fato EcoNatural line are certified EU Ecolabel and FSC™ Recycled.

➤ STAR

Soft micro-embossed napkins

Original, on-trend designs combine with exquisite softness to create the Star collection. Interpreting the latest styles in a choice of monochromatic and patterned napkins, they add a contemporary flourish to tables in any environment.

➤ THE SMART TABLE

Bringing colour to your table

Choose from a generous palette of striking colours to find the combination which best interprets the style and mood you are looking to recreate with your table settings.

➤ ALL READY

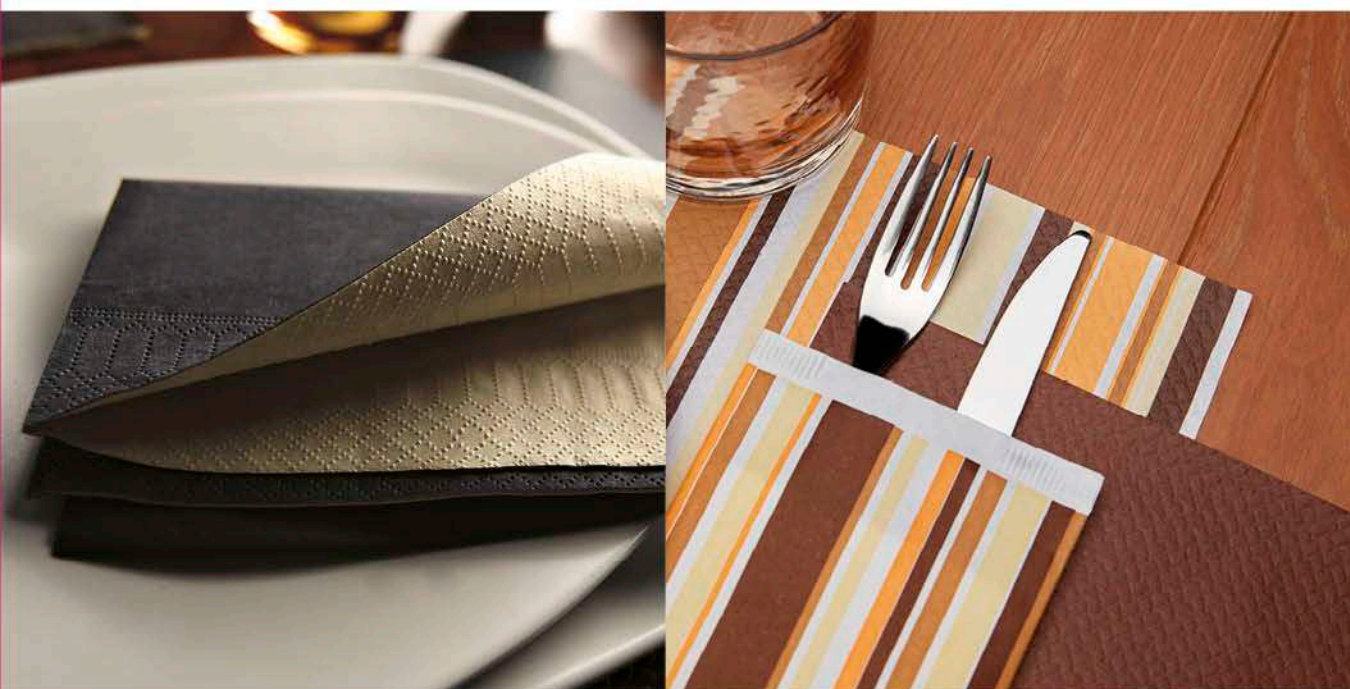

Single-ply classic white

Sometimes simplicity is all we need in life, which is why classic white is always a practical and versatile solution for those informal snack or meal moments.

➤ TISSUE & CO

A decorated range for informal, everyday occasions

A comprehensive range of cheerful, practical patterns to provide a light-hearted touch to informal meal occasions.
